

MEMORANDUM

Date: June 16, 2021
To: Transfer 84948
From: Cooper Fritz
Re: Review & Evaluation of Sufficiency of Information

This transfer changes the point of diversion for rights 15-7454 and 15-15-7462.

Authority to File:

The applicants, Daniel and Tawney Irey, have the authority to file.

The applicants were the owners of the water rights at the time of transfer submittal, according to Department records.

Oneida County taxlot data, updated 4/21/2020, indicated that the owners of the place of use and point of diversion were Camron and Wendy Kowallis. A Warranty Deed from Camron and Wendy Kowallis to the applicants is dated March 12, 2021, granting the property covered by the rights' place of use and the new point of diversion. The deed is silent with regards to water rights. It is included in the Notice of Change in Water Right file, received by the Department on April 2, 2021.

The applicants both signed the application.

Water Right Validity:

The rights are valid for transfer.

15-7454 was licensed on 4/11/1979 and 15-7462 was licensed on 7/17/2017.

Evidence available to the Department, specifically post-licensing aerial photography, demonstrates consistent irrigation.

Injury to Other Water Rights:

No injury to other water rights will result from this transfer's approval.
The transfer was advertised and no protests were received.

Enlargement of Use:

No enlargement of use will result from this transfer's approval.
Rate, volume, nor irrigated acres are authorized to increase.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
