Ident. No. 95-18107

RECEIVED

JUN 04 2021

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

IDWR / NORTH

1. Name of applicant(s) MATTHEW A PETTIBONE Phone 253-312-9035
Name connector (check one): ☐ and ☐ or ☐ and/or
Mailing address PO BOX 1676 City SPIRIT LAKE
State ID ZIP 83869 Email MPILCHUCK@YAHOO.COM
2. Name of representative, if any _____ Phone _____
Mailing address _____ City _____
State _____ ZIP _____ Email _____
- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☐ Send original correspondence to the applicant and copies to the representative.
- b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply GROUNDWATER which is a tributary of _____
4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
53N	03W	7	4		SW	SW	KOOTENAI	GROUNDWATER	D0079069

5. Water will be used for the following purposes:
- Amount 0.04 CFS for DOMESTIC purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)
- Amount 0.02 CFS for STOCKWATER purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
6. Total quantity to be appropriated is (a) 0.06 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).
7. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. APPLICANT WILL SHARE WELL WITH NEIGHBOR AND PUMP TO USES
- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
- e. If well is already drilled, when? 2018; drilling firm HORSLEY
well was drilled for (well owner) APPLICANT; Drilling Permit No. D0079069

For Department Use

Received by _____ Date _____ Time _____ Preliminary check by _____
Fee \$ 1000 Received by Ja Receipt No. N037037 Date 6-4-21
12500 Well Upgrade Fee

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in kW. _____
 - Stockwatering; list number and kind of livestock. 5 HEAD MIXED STOCK
 - Municipal; must complete and attach the [Municipal Water Right Application Checklist](#).
 - Domestic; show number of households 1 HOME
 - Other; describe fully. DOMESTIC USE IS FOR 1 HOME WITH IRRIGATION UP TO 1/2 ACRE

9. Description of place of use:
- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
 - If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
53N	03W	7											D,S						
													GL4						

Total number of acres to be irrigated: _____

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? _____
11. a. Who owns the property at the point of diversion? WILFRED HANNI
- b. Who owns the land to be irrigated or place of use? APPLICANT
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: APPLICANT HAS WELL USE AGREEMENT WITH WILFRED HANNI
12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. APPLICANT HAS HAD WELL DRILLED AND IS APPLYING FOR WATER RIGHTS FOR DOMESTIC USE AND STOCKWATERING.
13. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).
14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Shared Well Water Agreement

This Agreement, made and entered into this 26th day of May 2021 by and between Wilfred I Hanni and Pamela J Hanni, who reside at 30400 N Revelation Court, Athol, Idaho, 83801, Hereinafter referred to as the "supplying party," and Matthew A Pettibone and Vickie L Pettibone who reside at 30570 N Revelation Court, Athol, Idaho, 83801, hereafter referred to as the "supplied party:"

WHEREAS, the supplying party is the owner of property located at 30400 N Revelation Court, Athol, ID, 83801, which property is hereafter referred to as "Parcel 1" and is more fully described as follows:

Three Angels Acres First Addition, Block 1, Lot 1

WHEREAS, the supplied party is the owner of property located at 30570 N Revelation Court, Athol, Idaho, 83801, which property is hereafter referred to as "Parcel 2" and is more fully described as follows:

Three Angels Acres First Addition, Block 1, Lot 2

WHEREAS, the undersigned parties deem it necessary to provide a well system to service the parcels described herein, and an Agreement has been reached relative to supplying water from the well and sharing the cost of supplying said water; and

WHEREAS, there is located a well upon the above described property of supplying party; together with water distribution facilities, hereinafter referred to as "water distribution system", for the purpose of supplying water to all properties connected to the said water distribution system; and

WHEREAS, it is the intention and purpose of the undersigned parties that the well and water distribution system shall be used and operated to provide an adequate supply of water for each of the properties connected thereto, for the domestic consumption of the occupants of said properties, and to assure the continuous and satisfactory operation and maintenance of the well and water distribution system for the benefit of the present and future owners, their heirs, successors and assigns of the properties connected thereto; and

WHEREAS, the said well is deemed by the parties hereto to be of adequate capacity to supply a single family dwelling on each of the parcels described herein with water from the well for all domestic uses of a single family residing therein; and

WHEREAS, the water from the well has undergone a water quality analysis from the State of Idaho health authority and has been determined by the authority to supply safe for human consumption; and

WHEREAS, the parties hereto desire to enter this Agreement for the purpose of reducing to

writing their respective rights and obligations pertaining to said well and water distribution system.

NOW THEREFORE, in consideration of the promises and covenants herein contained, it is agreed that the well and water distribution system situated on Parcel 1 shall be used by the parties to this Agreement, as well as by all future owners and occupants of said Parcels 1 and 2, upon the following terms and conditions:

1. That each of the parties to this Agreement does hereby grant to the other, his heirs, successors, and assigns, such easements over, across and through the respective parcels as shall be reasonably necessary for the construction of the well, maintenance of water pipes, pumping equipment, mains, electrical wiring and conduit consistent with the purposes of this Agreement.

Said easement shall be five (5) feet in width and shall extend on, over, across, and underneath said strip of land from designated well site to shared property line. No new permanent type of building shall be allowed to be constructed upon the water line easement except as needed for the operation of the well and water system.

2. That no party may install landscaping or improvements that will impair the use of said easements.

3. That until this Agreement is terminated, as hereinafter provided, the parties hereto (and their heirs, successors and assigns, for the exclusive benefit of the respective parcels of said real estate, and for the exclusive use of the households residing thereon), are hereby granted the right in common with the other parties to this Agreement, to draw water from the well located on Parcel 1 for domestic use only.

4. That the owners or residents of the dwellings located on Parcels 2, as of the date of this agreement shall:

a. Pay or cause to be paid to the supplying party, a monthly fee for this use of the well and water distribution system and the cost of electricity to operate the pump in the amount of \$25.00 on or before the 15th of each month. In the event that any such payment remains unpaid for a period of 60 days, the supplying party may terminate the supply of water to the supplied party until all arrears in payment are received by the supplying party.

b. Pay or cause to be paid promptly, one half the cost of all additional expenses for the operation and maintenance of the well and water distribution system that may become necessary. Shared expenses include the cost of repairs and maintenance on said well and water distribution system, including the cost to repair or replace the pump and or any other parts of the water system, excluding the pipelines that distribute the water to the individual dwellings and properties and any part of the water system serving only those individual dwellings and properties.

5. That the consent of all parties to pay a proportionate share of costs shall be obtained prior to embarking upon expenditures for system maintenance, replacement or improvement, except in

emergency situations.

6. That it is the agreement of the parties hereto that the payment for repairs and maintenance shall be made not later than 30 days after the repairs or maintenance have been carried out. In the event that any such payment remains unpaid for a period of 60 days, the supplying party may terminate the supply of water to the supplied party until payment is received by the supplying party.

7. That each of the parties hereby agrees that they will maintain and promptly repair or replace all damaged water pipes or mains serving their respective dwellings. All pipelines in the water system shall be maintained so that there will be no leakage or seepage, or other defects which may cause contamination of the water, or injury, or damage to persons or property. Cost of repairing or maintaining common distribution pipelines shall be born equally by both parties. Each party in this agreement shall be responsible for the maintenance, repair, and replacement of pipe supplying water from the common water distribution piping to their own dwelling and property. Water pipelines shall not be installed within 10 feet of a septic tank or sewage disposal drain field lines.

8. That each party shall have the right to act to correct an emergency situation and shall have access to the pertinent parcel in the absence of the other. An emergency situation shall be defined as the failure of any shared portion of the system to deliver water upon demand.

10. That only those parcels of real estate hereinabove described, and the dwellings located thereon, shall be permitted to receive water from said well and pumping equipment; and each of the parties hereto does hereby covenant and agree that he/she will not allow or permit other persons, other than household guests, to take, draw, use or receive water from the well, nor permit other persons to connect to the pipes or mains serving his/her respective parcel. It is further agreed by the parties hereto that they shall not furnish water from the well and water system herein above described to any other persons, properties, or dwellings.

11. The parties herein, their heirs, successors and/or assigns, will not construct any potential source of contamination, maintain or suffer to be constructed or maintained upon the said land and within 100 feet of the well herein described, so long as the same is operated to furnish water for two-party domestic use. Any potential source of contamination may include but is not limited to: septic tanks and drain fields, sewer lines, underground storage tanks, feed stations and/or grazing animals pens where manure can accumulate, enclosures for maintaining fowl or animal manure, liquid or dry chemical storage, herbicides, insecticides, hazardous waste or garbage of any kind. New structures and/or barns shall meet required setbacks and not harbor any potential source of contamination. The parties will not cross-connect any portion or segment of the water system with any other water source or waste-water disposal outlet.

12. That in the event the referenced well shall become contaminated and shall no longer supply

water suitable for domestic consumption, or shall no longer supply water adequate for the needs of all relevant parties, or in the event that another source of water shall become available to the respective parcels, then the rights and obligations of the parties created by this agreement shall cease and terminate in accordance with the terms and conditions hereinafter described.

13. That upon the availability of such other source of water, it is contemplated that a reasonable time shall be allowed to effectuate the necessary connections to the new source.

14. That the respective rights and obligations of the parties shall continue until the parties who wish to terminate their participation in the Well Agreement have executed and filed a written statement of termination at the Records Office (*office where deeds in your state are recorded*) of the County of Kootenai and the state of Idaho. Upon termination of participation in this Agreement, the owner and occupant of each residence which is terminated from the Agreement shall have no further right to the use of the well. The terminated parties shall disconnect their respective lateral connection from said well system and shall have no further obligation to pay or collect for maintenance and related expenses incurred thereafter. The costs of disconnection from the well and water system shall be borne by the owner of the pertinent parcel.

15. That the term of this Agreement shall be perpetual, except as herein limited.

16. That the benefits and burdens of this Agreement shall constitute a covenant running with the parcels of land herein described and shall be binding upon the heirs, successors in title and assigns of the parties hereto.

17. Any dispute under this Agreement shall be required to be resolved by binding arbitration of the parties hereto. If the parties cannot agree on an arbitrator, each party shall select one arbitrator and both arbitrators shall then select a third. The third arbitrator so selected shall arbitrate said dispute. The arbitration shall be governed by the rules of the American Arbitration Association then in force and effect.

Witness our signatures this the 26th day of MAY, 2021.

Subject: Request for Comments for WR#95-18107

Dear Interested Agencies:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right Permit application. You can find copies of the application at: <http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication. **The deadline for comments on the applications is July 6, 2021.**

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the Permit application.

Thank you,

Tammy

RE: Application for Permit No. 95-18107

Dear Applicant:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the COEUR D ALENE PRESS on 6/17/2021 and 6/24/2021. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant
