WATER SUPPLY BANK LEASE CONTRACT No. 1401

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
13. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
14. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 2.

Memorandum

To: Water Rights 2-7064, 2-7237A, 2-10181 & 2-10189
From: Justin Ferguson
Date: April 12, 2021
Re: Water Supply Bank Lease Applications 2010, 2011, 2012 & 2013

Purpose/Narrative: Four separate applications were received March 15, 2021 offering the entire allocation of water rights 2-7064, 2-7237A, 2-10181 & 2-10189 for lease to the Water Supply Bank. The current water right holder, Crown Farm Outback, has offered these four water rights as a lease/rental package such that the full amounts under each water right can be rented by Owyhee Farming/Frank Tiegs LLC.

Historically the water rights were separated from the underlying land and conveyed to Crown Farm Outback which then leased them to the Bank beginning in 1999 and has re-offered them again upon each contract expiration through the end of 2020.

Authority to File: The applications were prepared by Mr. S. Bryce Farris and signed by Mr. Oliver Lawrence of Crown West Realty LLC. On prior applications Mr. Lawrence has listed himself as Asset Manager for Crown West LLC and, current IDWR records indicate Crown Farm Outback as the current water right holder. No concerns at this time.

Water Right Validity/Forfeiture Evaluation: Water rights 2-7064 & 2-7237A were developed through a license in 1985 along with water right 2-7060 as the parent to what is now 2-10181. All four water rights were decreed through the SRBA during the period of 2009-2011 and have been leased to the Bank since 1999. As such a full period of non-use has not elapsed without a defense against forfeiture and the water rights can be considered for lease to the Bank. No concerns as this time.

Injury Evaluation: The water rights conditionally state that the water is to be delivered via the Bybee Canal however, during prior application reviews it was stated by Mr. Chris Alzola, as an agent for the Canal Association, that Crown Farms is not a part of the Association and that the Bybee has no comment in respect to the water rights being leased. While this does not affect the conditions placed on the water rights, it appears that the Canal Association is not concerned with the administration of the water rights or their impact to the Canal users. Further, as this is a continuation of prior contracts established in 1999 and as the Department has not received any information suggesting injury may be occurring to local water users, there are no concerns at this time.

Enlargement of Use: Because the water rights have been offered as part of a lease/rental package requesting the use of the entire allocation, there does not appear to be a cause for enlargement through the lease. No concerns at this time.

Local Public Interest: Staff are unaware of any local public interests that are averse to the lease.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments: As the place of use falls within water district 02, Watermaster comments were requested on 4/15/21. No concerns were received.

Water Supply Bank Evaluation: Based on the information presented by the applicant, staff recommend the proposal be approved for Crown Farms through the end of 2023 to facilitate a rental for Owyhee Farming/Frank Tiegs LLC.
