PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 2-10578

Dear Permit Holders:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Sincerely,

Subject: Permit 2-10578

Hello Debbi,

I reviewed permit 2-10578 for an in-house licensing exam, and I discovered that parcel for this property has expanded. It looks like to permit holder annexed the parcel next door, and is irrigating that parcel like a pasture. My quick assessment shows the permit holder is irrigating over 2.5 acres of ground and the permit is for 2 acres of ground. I did not find an application for permit to cover the additional irrigated ground. This permit was also approved in October of 2019, so there could possibly be more acres irrigated than what we can see in the 2019 aerial imagery. The Sentinel imagery isn't any help due the size of the property.

Please acknowledge proof on this one. I think it is best if we let Western Region work on this one, so we can make sure a second permit is filed to cover the additional irrigation. I would also do a site visit on this one to make sure we get all of the irrigation use covered by a water right.

Debbi – I copied Nick Miller and Scott Storms on this email, so they know they know it is coming and decide how best to address these issues.

Thank you.

Dan Nelson
