Date: May 27, 2021
Re: 4799A River Road LLC Hearing Recordings

The hearing recordings are too large to be profiled under the water right number for our website. When the public try searching for water rights related to application no. 47-17719, the search times out and they get an error. The water right number has been removed from the recordings and the recordings are available upon request.

IDWR personnel can search PCDocs for the recordings:
