The Idaho Department of Water Resources considers this form a statement by the permit holder(s) that development of a water right has been completed and that water has been applied to beneficial use to the extent described below. This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner. Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, contact any Department office or visit the Department's website at idwr.idaho.gov for an Assignment of Permit form. If you wish to relinquish your permit because you have not established the authorized use of the water and are not applying for an extension, please notify the Department in writing.

Regarding Water Permit # 55-14042 (our "Cookhouse Spring")

Thank you for your recent Approval of this permit - See attached Nov. 30, 2020 letter of approval. Also, thank you to all of you who helped get all of our ownership changes completed for our many water rights. Regarding our new water permit # 55-14042, your Nov. 30, 2020 letter indicates the "Final step" to receive a water right license on this permit is for us to submit a "Statement of Completion for Submitting Proof of Beneficial use" by Dec 1, 2025 (Condition #1).

We would like to finalize this permit, if possible, at this time. Hopefully the following statement will suffice as this "Statement of Completion":

The above Spring listed under our Permit # 55-14042 ("Cookhouse Spring") has been used by us since about 1991, and has been plumbed to our "Cookhouse", and used continually by us since 2009. We have owned this ranch including the Spring and Cookhouse property since 1991, and both the Spring and "Cookhouse" are on our deeded property. We are not aware of any previous water right regarding this Spring.

Sincerely, Melvin E. Seebeck Jr.
for "The Melvin Edward Seebeck Jr.
and Lois Arlene Seebeck Family Trust"

Please advise us regarding what else we might need to do to complete this, and receive a final "Water Right License" on this permit and all our other water permits which are under Continued use.

Thank you, Melvin E. Seebeck Jr.

RE: Water Permit No. 55-14042

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a Statement of Completion for Submitting Proof of Beneficial Use by the date shown in condition no. 1 of your permit. The Department will send you a Proof Due Notice approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.
