RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on February 16, 2021.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)
17-7118	11/21/1985	GROUND WATER	0.09	37.9	14.3
17-7136	1/7/1991	GROUND WATER	0.14	25.2	7.2
Combined Limit Totals			0.23	50.1	14.3
Combined Lease Totals			0.23	63.1	21.6

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2021 to December 31, 2023. This Lease shall bind the parties and take effect when both parties have signed it.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.

WATER SUPPLY BANK LEASE CONTRACT No. 1381

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

WATER SUPPLY BANK LEASE CONTRACT No. 1381

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The unleased extent of water right 17-7118 is limited to a diversion rate of 1.91 cfs and an annual diversion volume of 811.1 af for the irrigation of 305.7 acres within the authorized place of use in a single irrigation season.
13. The unleased extent of water right 17-7136 is limited to limited to a diversion rate of 2.86 cfs and an annual diversion volume of 534.8 af for the irrigation of 152.8 acres within the authorized place of use in a single irrigation season.
14. The unleased extent of water rights 17-7118 and 17-7136 when combined shall not exceed a total diversion rate of 4.77 cfs, a total annual maximum diversion volume of 1,069.9 af at the field headgate, and the irrigation of 305.7 acres.
15. The leased extent of water right 17-7118 is limited to a diversion rate of 0.09 cfs and an annual diversion volume of 37.9 af for the irrigation of 14.3 acres in a single irrigation season.
16. The leased extent of water right 17-7136 is limited to limited to a diversion rate of 0.135 cfs and an annual diversion volume of 25.2 af for the irrigation of 7.2 acres within a single irrigation season.
17. The leased extent of water rights 17-7118 and 17-7136 when combined shall not exceed a total diversion rate of 0.225 cfs, a total annual maximum diversion volume of 50.1 af at the field headgate, and the irrigation of 14.3 acres.

APPLICATION TO SELL OR LEASE A WATER RIGHT
(Continued)

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to [Section 42-108, Idaho Code](#) and [IDAPA WSB Rule 37.02.03.25.02e](#).

- B. Please provide a description of the current water diversion and delivery system.

Groundwater is used to provide for two large pivots and two small pivots for the large areas, and handlines for the remainder. This lease requires cessation of use of the handlines in parcels 1,2,3,4 and a portion of 5. See map.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. Rights 17-7118 and 17-7183 are stacked on this property. 50 af are used to irrigated 14.3 acres. 17-7118 provides 60% of the volume for irrigation of this property and 17-7183 provides the remaining 40%. Thus, the 50 af annually will be allocated as 30 af from 17-7118 and 20 af from 17-7136.

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☒ No ☐
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased. The 14.3 acres from which the water is removed under this lease will be dried up.

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. The 14.3 acres from which the water is removed under this lease have been fully irrigated via hand lines for each of the past 5 years.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See [Section 42-223, Idaho Code](#) for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed.

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?
If yes, describe.

Yes ☐ No ☒

APPLICATION TO SELL OR LEASE A WATER RIGHT
(Continued)

5. SALE/LEASE AGREEMENT

- A. Is the water right, or portion thereof, offered to the Idaho Water Resource Board (IWRB) for sale ☐ or lease ☒?

If lease, specify the years when the use of water will be suspended: 2021 to 2021 (maximum lease period 5 calendar years).
(Year) (Year)

- B. Show the minimum payment acceptable to the seller/lessor. The minimum payment may be shown as the "current rental rate" as established by the IWRB. Include the method of determining the minimum payment if other than the current rental rate.
Per agreement between the lessor and the renter, the payment for the water this year is \$25,000.

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Applicant acknowledges the following:

1. Payment to the Designated Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

**RE: WATER SUPPLY BANK LEASE CONTRACTS 1381
FOR WATER RIGHTS 17-7118 & 17-7136**

Dear Lessor:

Water rights **17-7118 & 17-7136** were leased into the Water Supply Bank (Bank) as of January 1, 2021, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2023**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Amanda Johnson-Veibell

RE: APPLICATION TO LEASE WATER RIGHTS 17-7118 & 17-7136 TO THE WATER SUPPLY BANK CONTRACT 1381

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2023**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Amanda Johnson-Veibell

Re: Water Supply Bank Lease Application 1982

Purpose/Narrative: An application was received by the Department February 16, 2021 from Black Pine Farm LP, proposing to lease into the Bank portions of irrigation ground water rights 17-7118 & 17-7136 for one year. The application was submitted through Dave Tuthill of Idaho Water Engineering and signed by John O. Campbell, and it proposes to idle 14.3 acres under these water rights so that the irrigation water use might be rented to Pilot Gold (USA) Inc through rental application 1984.

The lease application specified that the lease of 50.1 af under these water rights should be rented by Pilot Gold (USA) Inc (through rental application 1984) at the rental rate of \$25,000, or \$499.50/af. Pilot Gold has confirmed that an agreement is in place to pay this rental rate. This rental rate will be honored on the rental agreement, however, the lease contracts will be authorized with the "current rental rate."

When the application was submitted, a one year lease was requested. However, through conversations with the intended renter of these water rights, it was identified that a three year rental had been agreed to between the lessor and renter. In recognition of the intent of the lessor and renter to enter into a three year water right lease, this lease approval will be made for three years.

Authority to File: Secretary of State records confirm John O. Campbell is both the registered agent and general partner of Black Pine Farm LP. Black Pine Farms LP owns the land on which irrigation is authorized under water rights 17-1778 & 7136. No concerns about authority to file.

Water Right Validity/Forfeiture Evaluation: Water rights 17-7118 and 7136 authorize the irrigation of 320 acres, from ground water, on lands located near the Utah border, in Oneida County. The ground was until as recently as 2009 fully irrigated using hand lines. By 2013, the irrigation system had been converted and the ground has since been irrigated by two full center pivots, and two half-pivots which appear capable of fully irrigating all 320 acres.

Both water rights were licensed in 2012. Based on an analysis of sentinel satellite imagery from 2016-2020, a majority of the 320 acres have been irrigated under the center-pivot system in recent years, and all 320 acres appear to be covered in vegetation during spring of 2017. (See Appendix A to this memo for satellite imagery analyzed as part of this review process). No concerns about water right validity.

Injury Evaluation: No injury is apparent through this lease.

Enlargement of Use: Water right 17-7118 is the more senior of the two water rights, and it authorizes irrigation of the entire 320 acres, while water right 17-7136 is junior and supplemental to 17-7118, and authorizes an acre limit of half the area, or 160 acres. Because 14.3 acres overall are being leased to the Bank, proportionately, an acre limit of 7.2 acres will be leased into the Bank under 17-1736.

Local Public Interest: Staff are unaware of any local public interests that are averse to the lease.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments: Comments were requested from staff IDWR's Eastern Region on 3/22/2021.

Water Supply Bank Evaluation: WSB review staff recommend approval of this lease proposal.

Hi James,

Black Pine Ranch LLC is leasing into the Bank 14.3 acres of their irrigated land near the Utah border, east of Black Pine mountain, so that the lease volume of water might be rented by Pilot Gold (USA) Inc for mining exploration work on Black Pine Mountain. The Water Supply Bank lease proposal and rental request records are attached. On behalf of Eastern Region, please advise if you have any questions, comments or concerns about this transaction.

Thanks,

Remington

Dave,

My apologies that I never got back to you with an answer about doing a three year lease/rental. The answer is yes, we can issue lease and rental approvals for three years, instead of one. I finalized my review of these applications earlier this month, and approvals are being prepared for issuance. I will update the approvals to make them for three years, to reflect the agreement between Pilot Gold and Black Pine Ranch.

Thanks, Pete.

My understanding was that this lease application would be for one year, so this is what we submitted.

Given the three year agreement, Remington can we change the application to reflect three years at this point?

Thanks,

Dave

I have attached our signed copy of the water lease agreement, the agreement is for 3 years with escalating payments each year so I assume that we need to re-do the water lease rent agreement with IDWR every year?
