Subject: Bartschi Land LLLP Transfer 84837 Dams additional photos

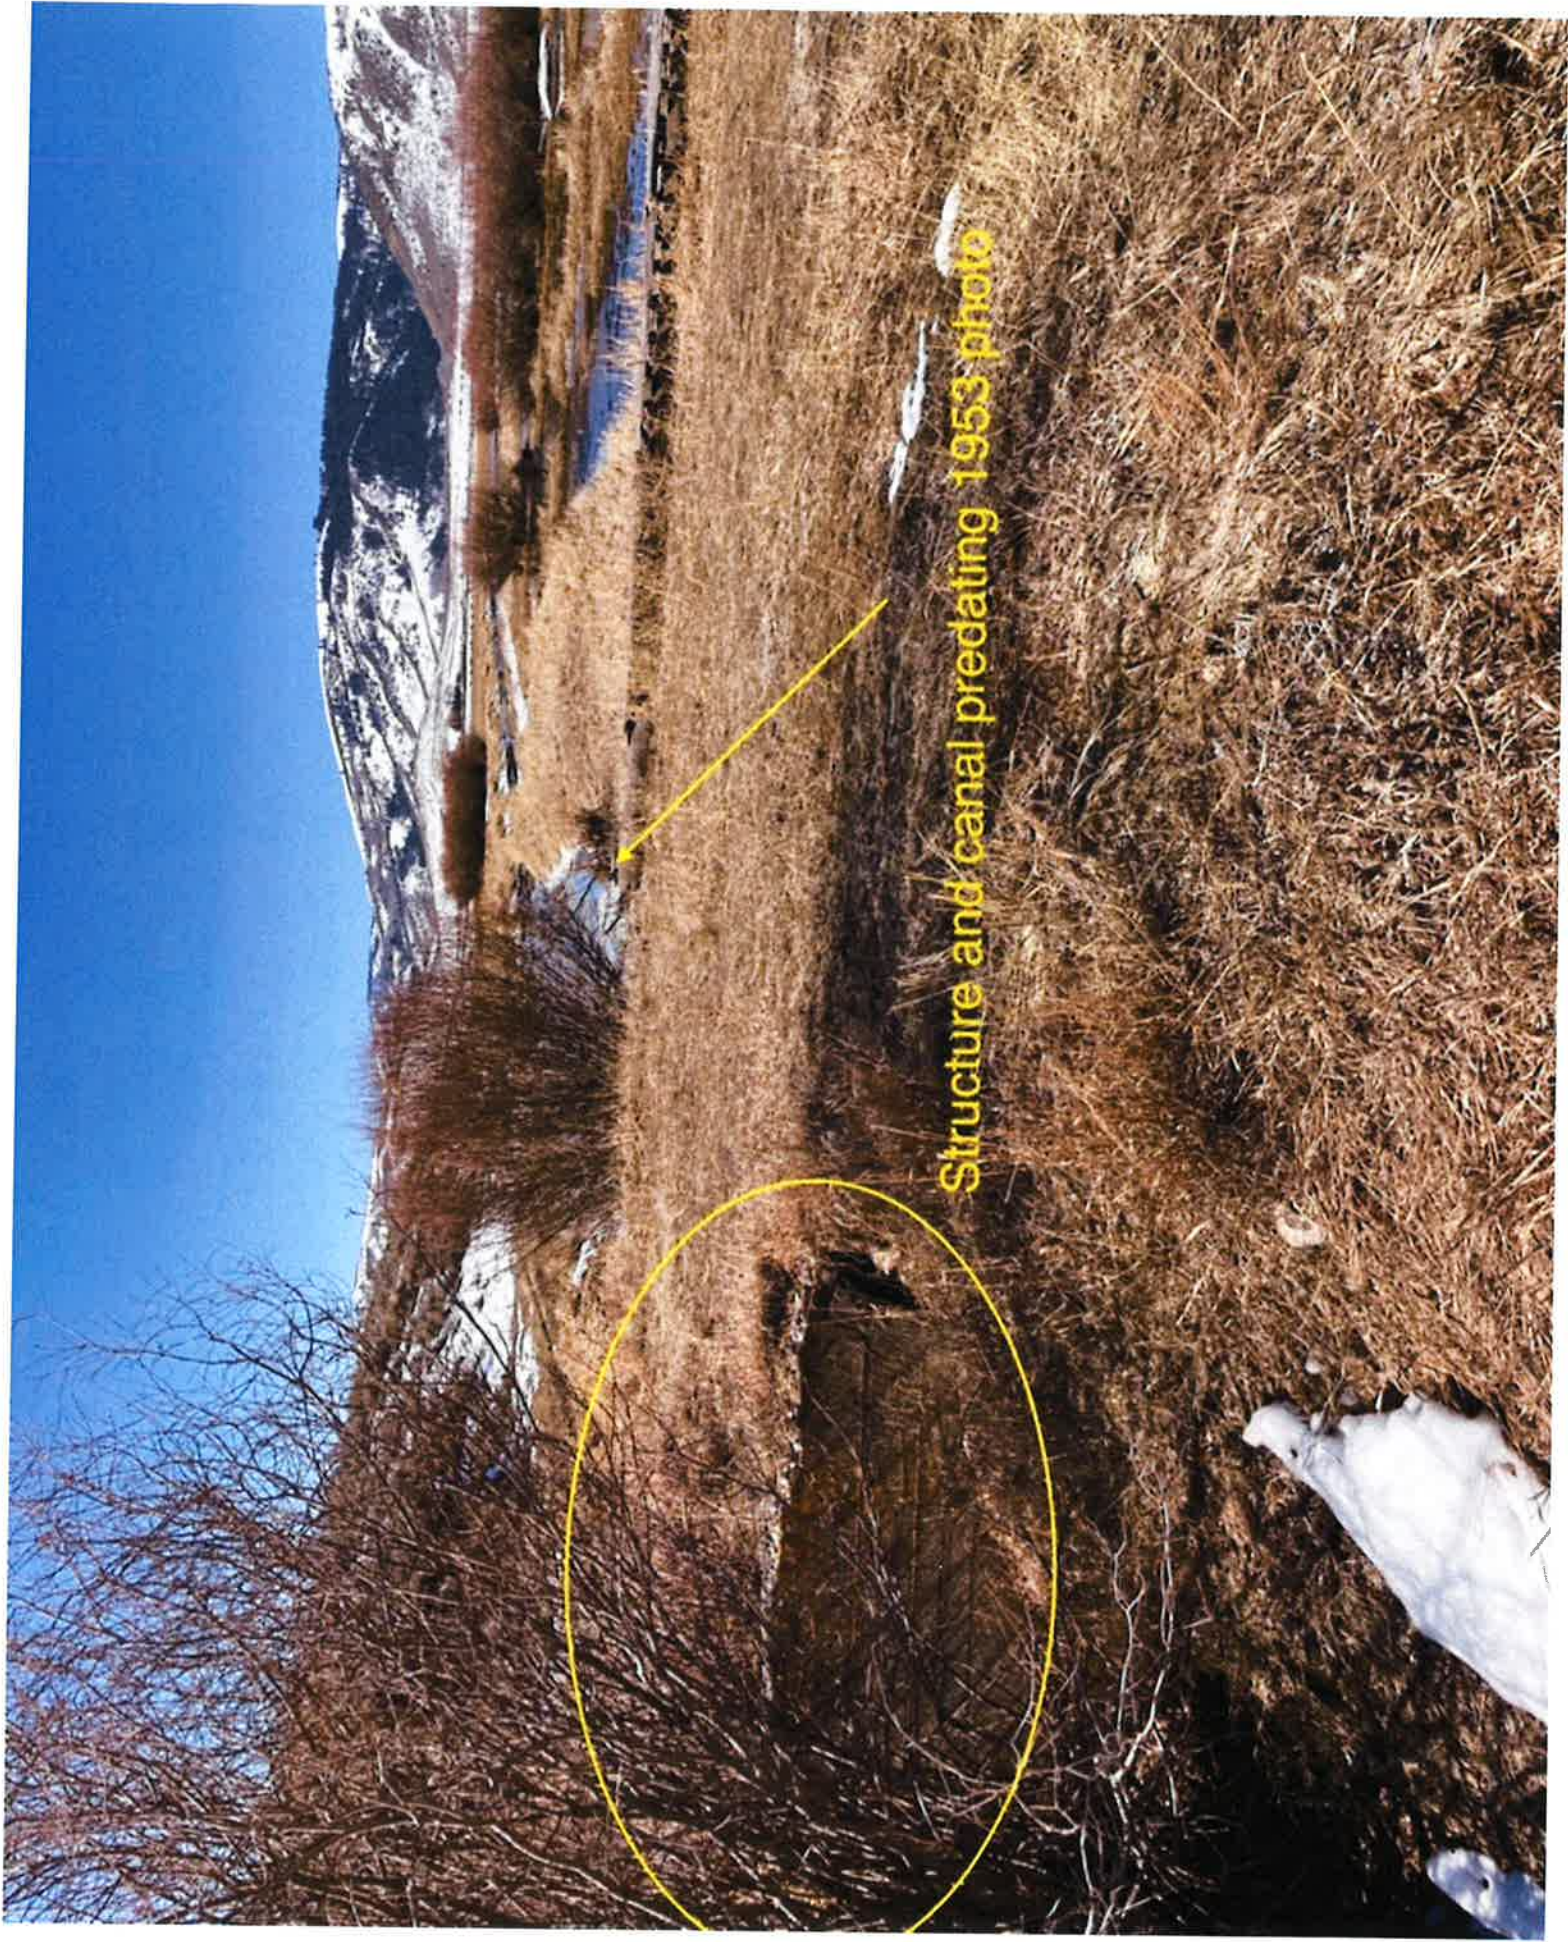

Hi Michael,

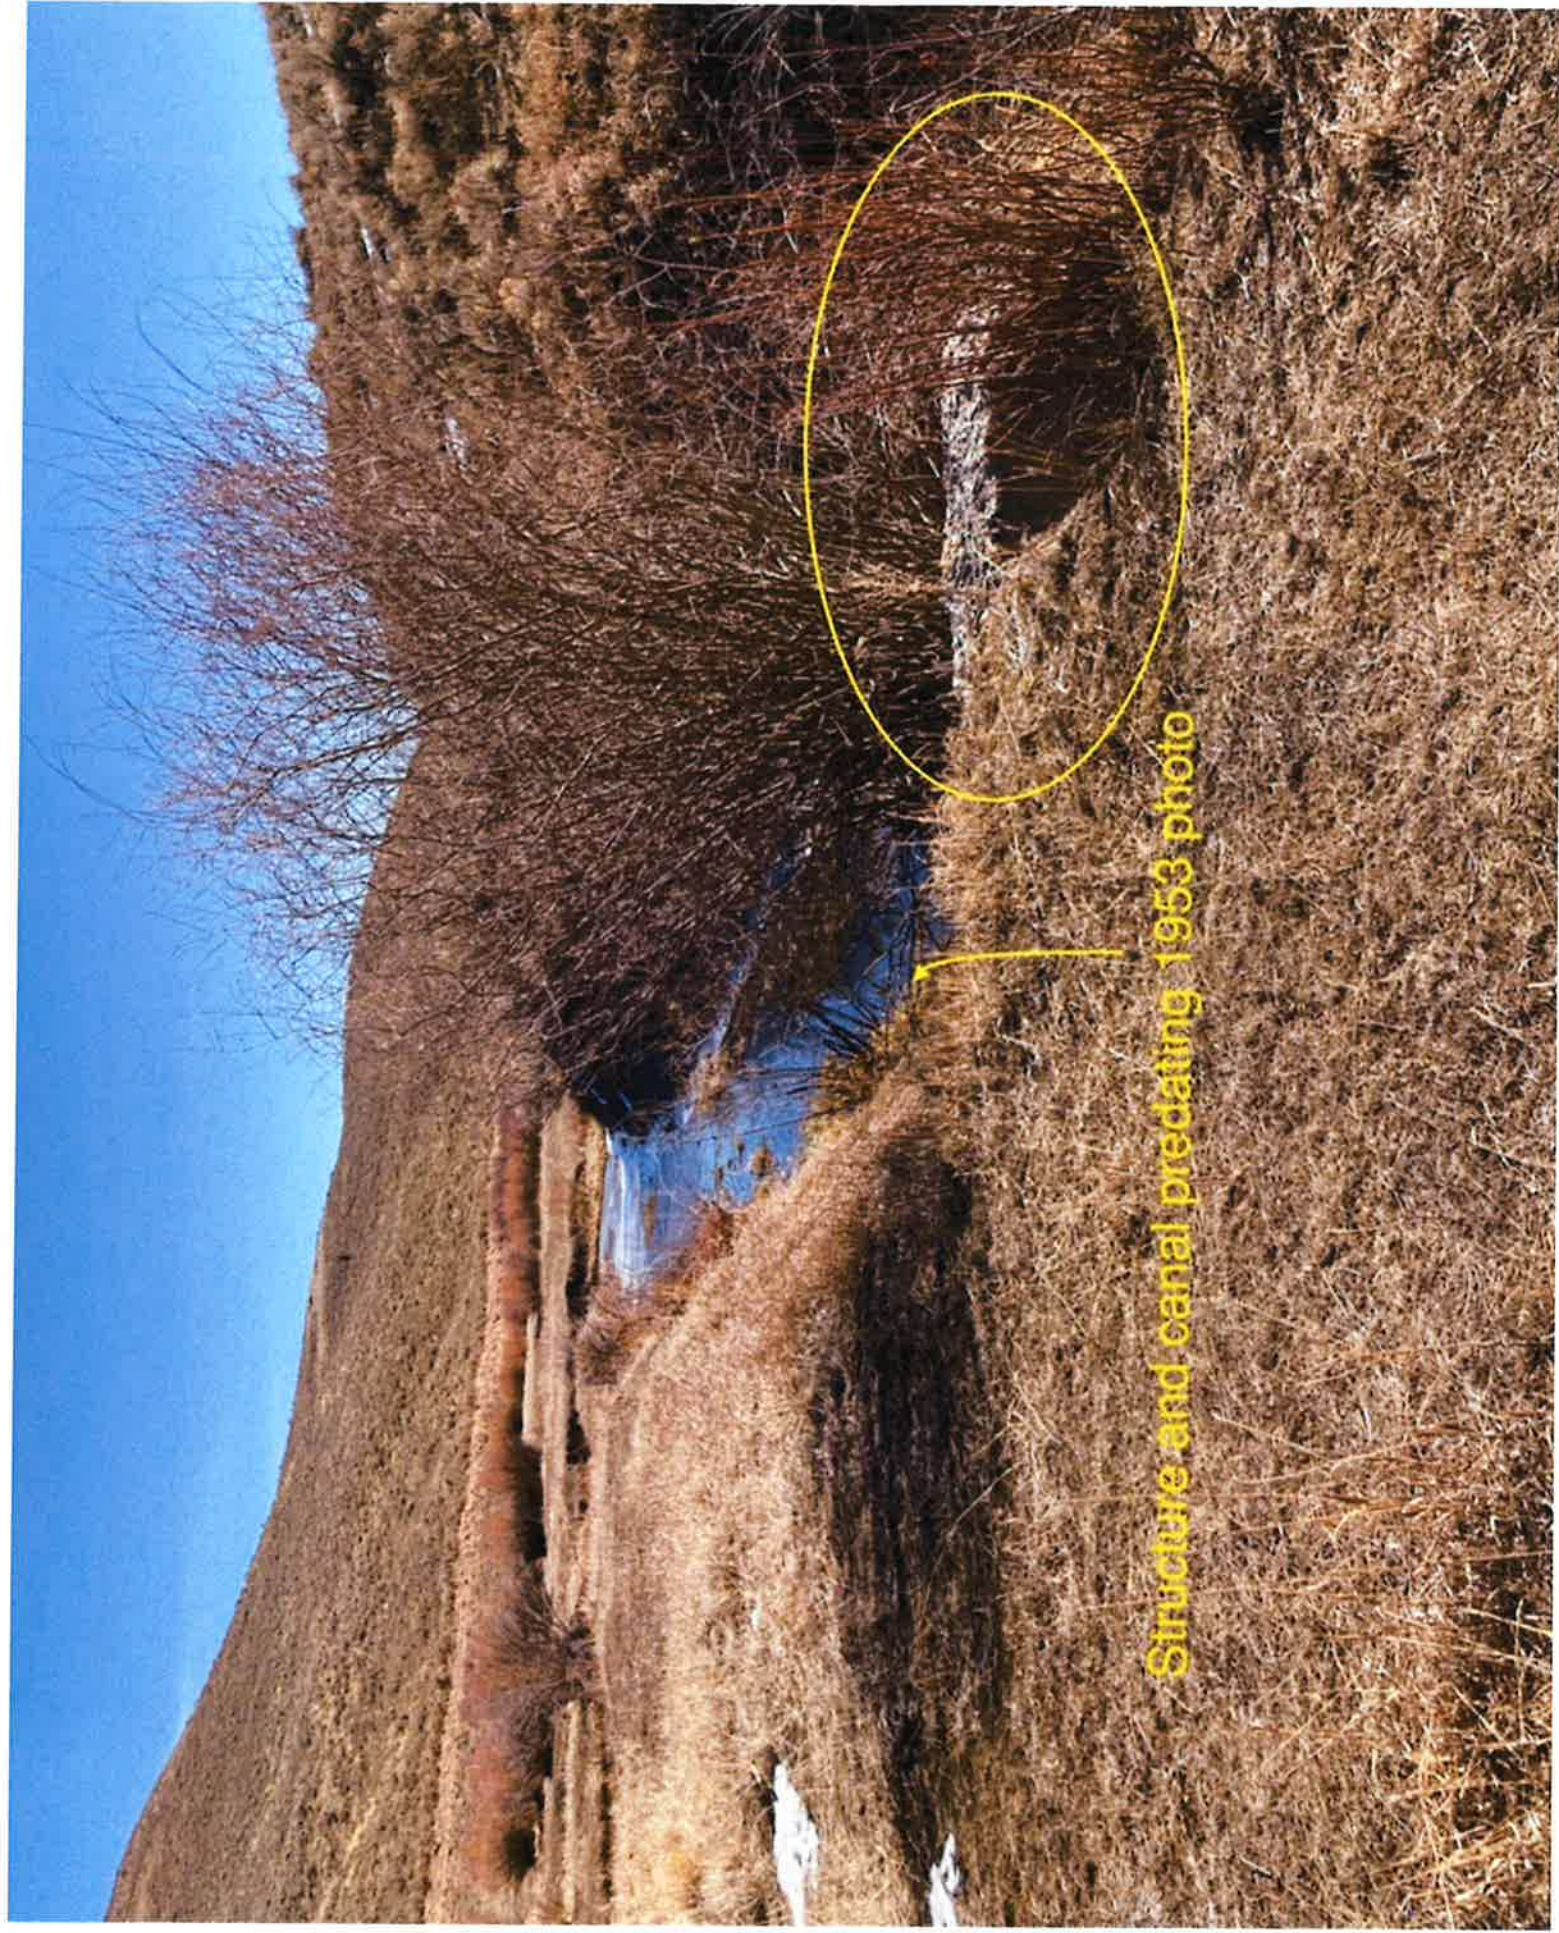

I took these pictures this morning to clarify what you were seeing on the fuzzy aerial photos. Please add these to the file as well. We might need them in the future. These photos add visual evidence to what the affidavits say, that this structure was in place by the early 1940's or sooner.

Let me know what else I can help with.

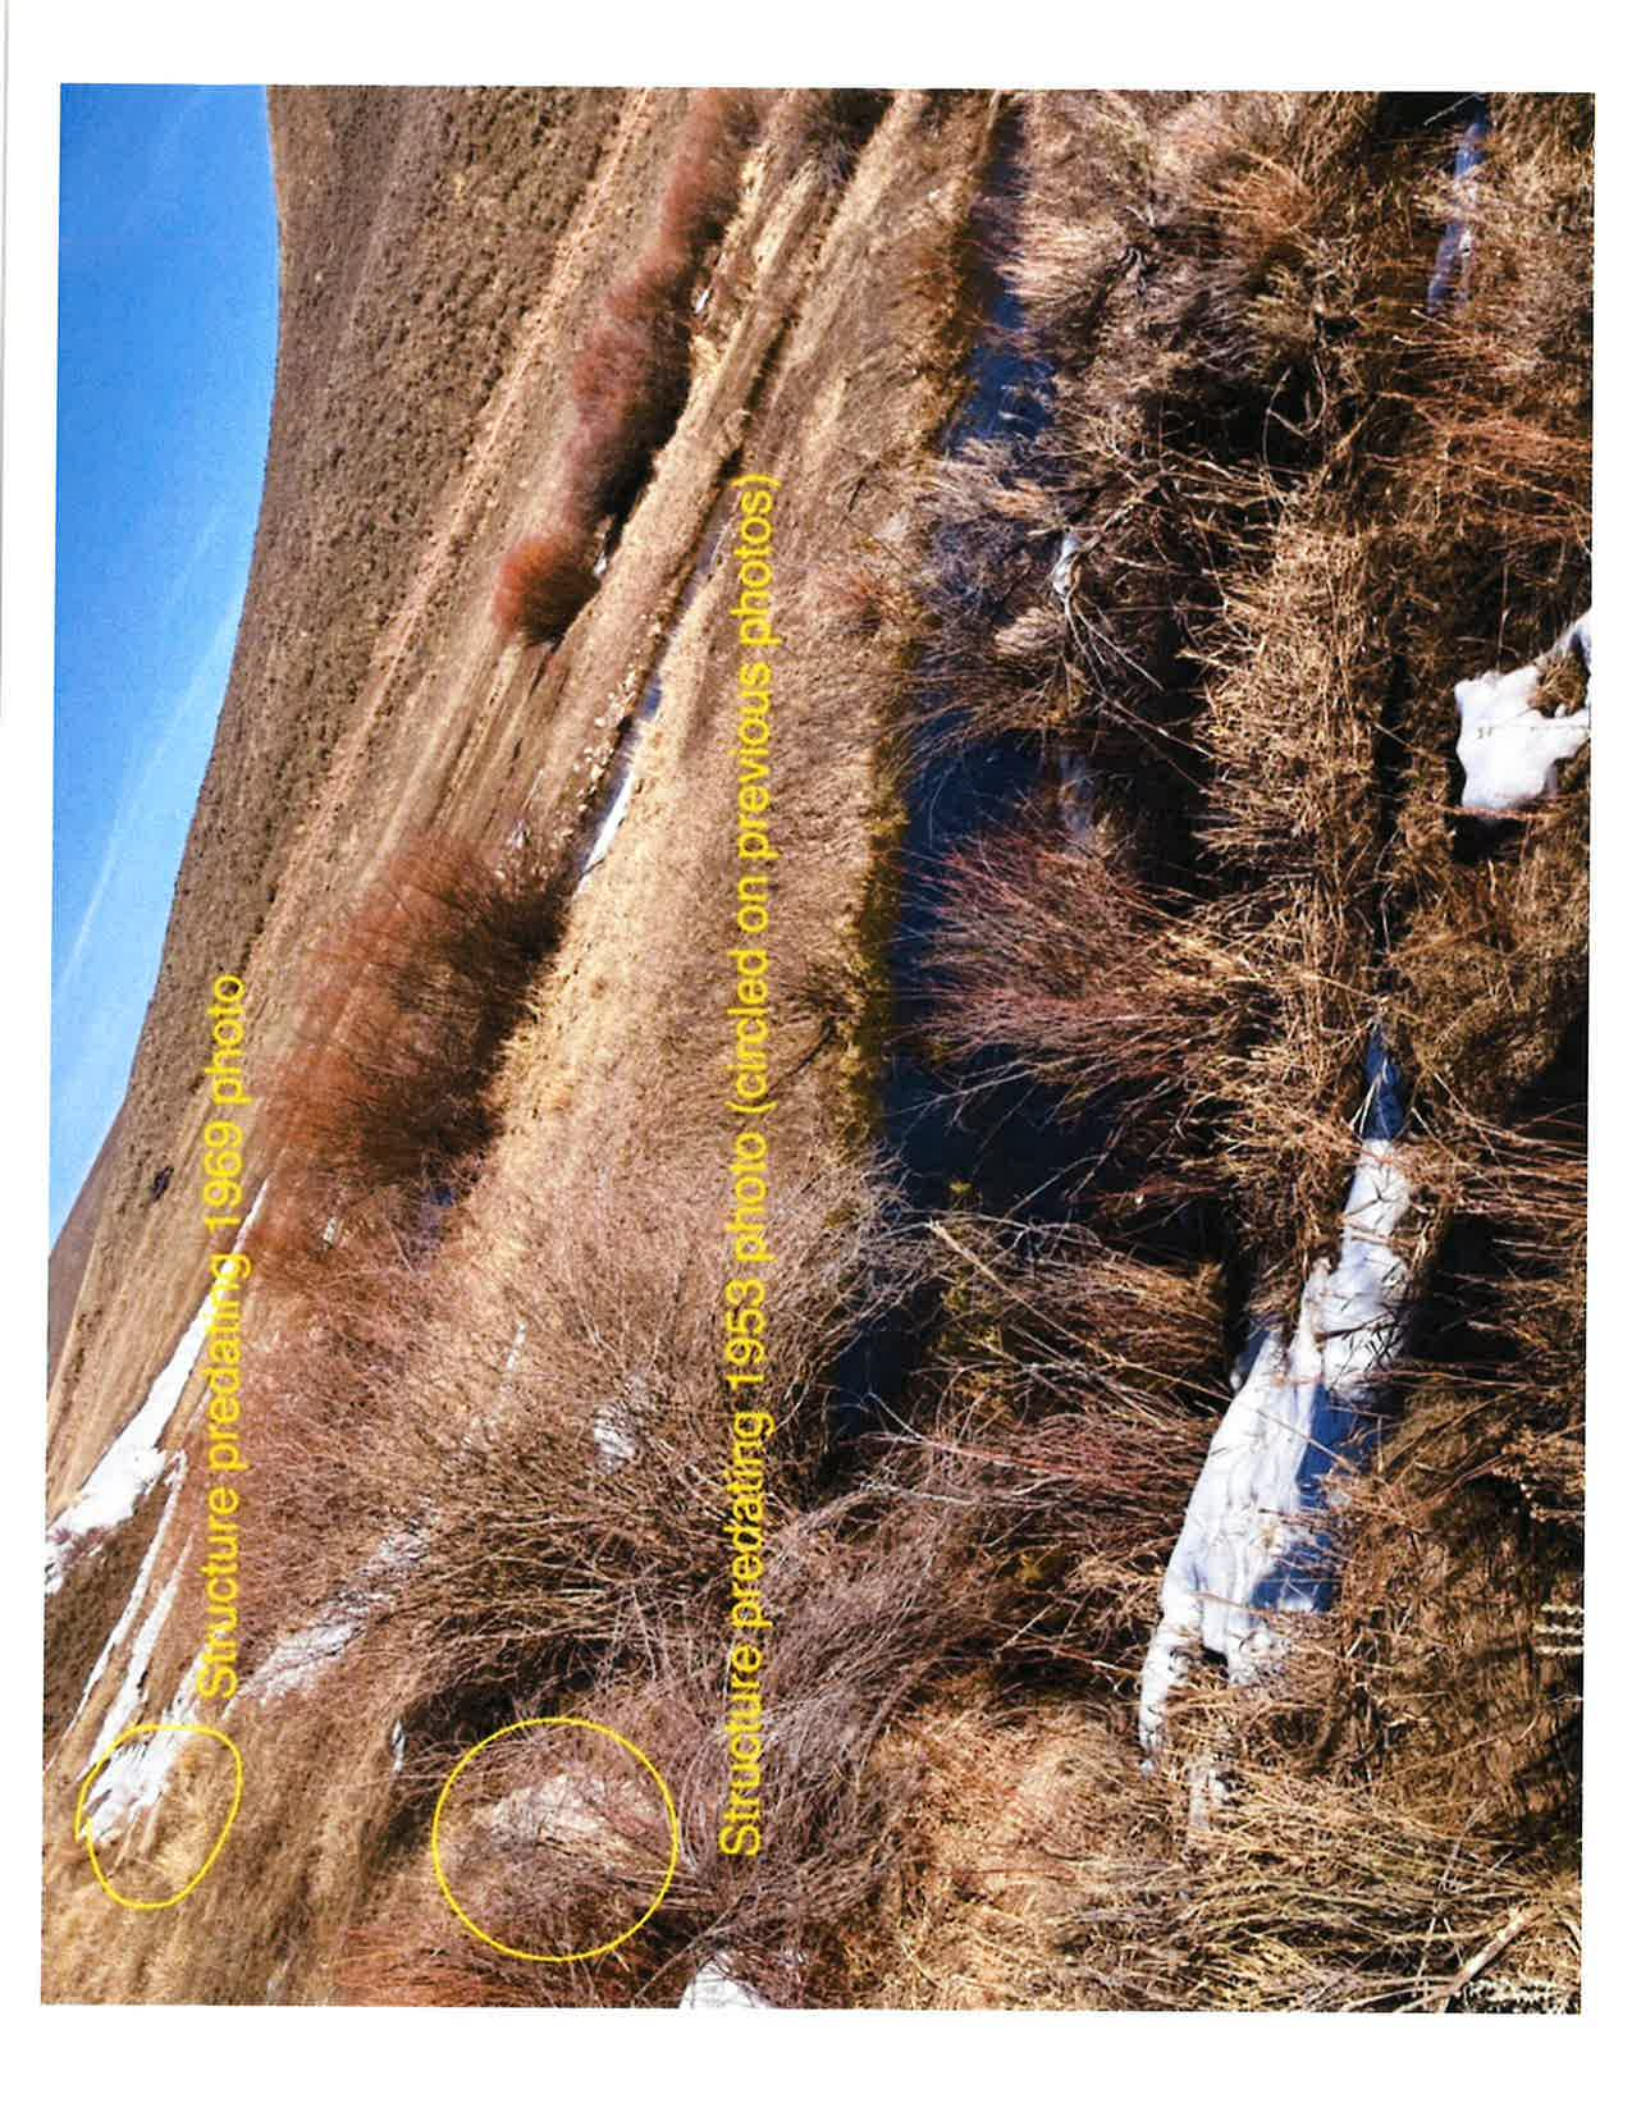

Thanks,
Sean

Subject: Bartschi Land LLLP Transfer 84837 Dams Identified

Hi Michael,

This is Sean Bartschi writing from my wife's email address. I am including photos of the original dam structure that predates the 1953 photo, with details circled for clarity. I will also send current photos of the circled structure tomorrow.

Thank you,
Sean
