EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: April 13, 2021
To: Transfer # 84764 File
From: Michelle Richman
Re: Evaluation of Sufficiency of Information Submitted

Transfer application 84764 proposes to convert a 7.7 acre (0.13 cfs) portion of an irrigation groundwater right to stock water and commercial use for the expansion of an existing heifer and calf facility located approximately 6.4 miles west and 4.9 miles north of the center of Paul. The irrigation right to be converted is currently authorized to be diverted from two irrigation wells both located within $\frac{3}{4}$ of a mile of the facility. The application also proposes to change the place of use of two stock water and commercial groundwater rights (totaling 0.14 cfs) used at the facility to reflect the expansion. The converted right and the two commercial and stock water rights will divert up to 0.27 cfs and 46 acre-feet per year from an existing well on the facility.

The change in nature of use analysis from irrigation to commercial/stock water was completed using the METRIC (Mapping Evapotranspiration) modeling available on the IDWR website. The applicant's CIR of 2.46 acre feet per acre was replicated using the METRIC tool. The 7.7 acre conversion corresponds to a transferred volume of 18.9 acre feet and to a volume reduction of 30.8 acre feet from former irrigation volume of 1084.4 acre feet.

ESPA model analysis is unnecessary because the irrigation and the stock water and commercial PODs are within a single model grid cell. The proposed transfer POU is in Water District 130, and Water Master comments were solicited and received with no opposition indicated.

- **Authority to File:**
Valley View Dairy LLC, the current owner of all water rights and properties associated with this transfer, is registered with the Secretary of State, and the applicant has signing authority.
- **Water Right Validity:**
Water Rights 36-2257, 36-17012, and 36-17013 were decreed in the SRBA on 8/27/2001. Recent aerial and satellite imagery indicates that the property involved with this transfer has recently been irrigated or used for stock water and commercial purposes as licensed.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
There is a decrease in volume as a result of the change in nature of use process, which precludes potential enlargement of the converted water right.
- **Local Public Interest:**
No negative impacts anticipated.

- **Beneficial Use/Conservation of Water Resources:**
Proposed uses are recognized as beneficial uses of water.
- **Effect on Economy of the Local Area:**
No issues anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
