DEPARTMENT OF WATER RESOURCES

**INSTRUCTIONS FOR FILING A
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All persons owning or claiming ownership of a water right or claim are required to provide notice to the Department of Water Resources (IDWR) of any change in ownership of any part of the water right or claim or of any change in the owner's mailing address within 120 days of the change. Forms to report ownership changes and/or to update an address are available on IDWR's website at www.idwr.idaho.gov. In addition, all new owners of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

A notice is required for changes in ownership from one individual to another, from an individual to a business entity (even if the business is owned by the individual), or from one business entity to another (even if both businesses are owned by the same individual). Adding or removing a name is considered an ownership change which requires the submission of evidence to support the change and the filing fee.

Separate brochures describing the adjudication of water rights and the ownership change notice requirement are available from IDWR. Please contact your nearest IDWR office if you would like more information or need help completing this form. A list of IDWR offices is on page 2 of these instructions, or you can call 1-800-451-4129. Water right information can be found on the department's website using the Water Right and Adjudication Search link at www.idwr.idaho.gov.

Please note:

- Unlike licensed or decreed water rights, which are real property, water right permits, applications for new water rights, and applications to transfer existing water rights are considered the personal property of the permit holders/applicants. Permit holders and applicants must assign their interest in a permit and/or application to the new owner. Assignment forms are available on the department's website at www.idwr.idaho.gov, or from any IDWR office. The fee for an assignment of permit is \$25. There is no charge for an assignment of application for permit or application for transfer.
- If you want to change or add a point of diversion, place of use, season of use, or purpose of use of a water right, you must file an Application for Transfer. The ownership of a water right can also be updated through the transfer process.
- The combined portions of a divided ("split") water right cannot exceed the total flow rate, volume, or period of use of the original right.
- IDWR has no jurisdiction concerning easements, rights-of-way, and zoning matters. The buyer and seller must make these provisions where necessary.

LINE INSTRUCTIONS:

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be divided ("split") to provide you your share of each right. Mark the box "Yes" if a division of the water right is required.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, and the water rights are held by the organization, please do not use this form to record a change. Please contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but you do not know the numbers, you may contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. Fill in the name of the current water right holder/claimant.
3. Fill in each name as listed on the conveyance document and complete the current contact information. For water rights, IDWR will update the ownership to the individual(s)/entities listed on the conveyance document. For active adjudication claims, IDWR will update the claimant information to match the conveyance document unless the new claimant provides good cause for the variance.
4. You may have acquired only a portion of the water right(s) held by the seller. If you did not acquire the entire water right/property, please check the appropriate box. Water rights are often conveyed as an appurtenance to the land where they are used, and the conveyance document for the land often does not have specific language regarding the water right. Please read your deed or other conveyance document carefully to be sure. When the conveyance document does not specifically address water rights, it will be assumed that the water rights are to be split proportionate to the amount of land acquired.

WATER DONATION AGREEMENT

Brigham Young University, a Utah nonprofit corporation and educational institution ("Donor") and Cassia Joint School District 151 237 East 19th Street, Burley, ID 83318 (208) 878-6600, an Idaho corporation ("Donee") make this Agreement this 26th day of September, 2001.

1. **BACKGROUND.** Donor is the owner shown on the records of Idaho Department of Water Resources ("IDWR") with regard to certain water rights ("Water Rights") listed in paragraph 3 of this agreement. Donee desires to receive and Donor desires to donate the Water Rights to Donee on the terms and conditions set forth below.

2. **CONSIDERATION.** The parties acknowledge the receipt and sufficiency of consideration for this agreement, including mutual promises and other good and valuable consideration.

3. **WATER RIGHT TO BE PURCHASED.** Donor owns water rights ("Water Rights") enumerated in the following list. Donee shall receive under the terms of this Agreement an interest in and divided portion of said Water Rights:

48 Acre Feet of Water Right Nos. 43-2465A and 43-2465B.

4. **APPLICATION FOR TRANSFER OF WATER RIGHT.** Donor intends to prepare an Application for Transfer of Water Right (the "Application"), in the name of the Donor, to obtain IDWR approval for a transfer of the water right for use on the Donee's property. The application to transfer shall be filed in the office of IDWR within 21 days of the date of this Agreement, and the Donee shall pay the statutory filing fee charged by the IDWR. Donor shall pursue and obtain a "Preliminary Order" of approval for the transfer of water rights. Donee shall pursue the final approval of the transfer and change of ownership application, including any appeals, at its sole expense. Donee shall consult with Donor regarding the contents of any documents, including court papers filed in appeals, that it may desire to make prior to filing such documents.

5. **TRANSFER APPLICATION PROCEDURES.** After the Application has been filed, IDWR will proceed to process the application according to its rules and procedures. If after notice of the filing of the Application has been published by IDWR one or more parties files protest and a hearing is held, Donee and Donor may each participate at the hearing to support the approval of the transfer application. If IDWR decides to approve the Application and a review proceeding is commenced by a party seeking to overturn the decision, either Donee or Donor may terminate this Agreement without receiving a final determination of the review proceeding by notice of termination communicated to the other party within 10 days of notice of commencement of the review action.

5. Indicate the date the water rights and/or adjudication claims were conveyed to you. This may be the date of closing in the case of a real estate transaction, the date a contract was signed, or the date of a court order.

6. If you are unsure about the status of your water right in the Water Supply Bank, go to: www.idwr.idaho.gov/apps/ExtSearch/WSBSearch/WSBSearch.aspx, input your water right number and click "Search." If you find your water right is in the Water Supply Bank and you want to release it so you can use it, you can download the Request to Release form from the forms portion of our website: www.idwr.idaho.gov. Your water right may not be available for immediate release if rented by another water user.

7. **ATTACHMENTS:**

IDWR cannot process this change without **documentation of ownership**. The documentation may be in the form of a deed, court decree or other conveyance document. If you are submitting a quitclaim deed and the grantor's name does not match the water right holder of record, you will need to provide a chain of title that goes back to the water right holder/claimant of record. You may obtain this information from the assessor's office in the county where the property is located. Items that are **not** conveyance documents are deeds of trust, mortgages, purchase and sales agreements, and property tax notices.

Submit a **plat map, survey map, or aerial photograph** of the place of use for each water right or claim listed in item #1 (if necessary to clarify division of water rights or complex property descriptions). If your right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency or equivalent aerial photograph with the irrigated acres outlined and point(s) of diversion clearly marked. You also have the option of printing a map using the map tool on IDWR's website at: www.idwr.idaho.gov. It is not necessary to obtain a new survey for purposes of this form before contacting IDWR.

The Idaho Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication or the Northern Idaho Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the **filing fee** is \$25 per water right, except for those water rights that will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right.

If the water right is leased to the Water Supply Bank and there is more than one owner, a Lessor Designation form must be completed to specify who the designated lessor will be. Each of the owners must sign the Lessor Designation form.

An IRS Form W-9 is required for all ownership changes pertaining to water rights leased to the Water Supply Bank. Refer to instructions in section 6 above to determine if the water right undergoing an ownership change is leased to the Water Supply Bank. An IRS W9 form can be downloaded from the Department's website: www.idwr.idaho.gov.

8. One of the new owner(s) must sign the form in the space(s) provided. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.

When you have completed the Notice of Change in Water Right Ownership, retain a copy and **file the original form, necessary attachments, and filing fee with the IDWR office nearest you. Ownership changes for water rights leased to the Water Supply Bank should be sent to the State Office.**

6. FINAL APPROVAL OF THE APPLICATION FOR TRANSFER OF WATER RIGHT.

After a decision of IDWR to approve the Application becomes final e.g. after the time has expired for filing a request for reconsideration with IDWR and the time has run for filing a judicial review action in the district court and no judicial review action has been filed, or any court proceedings have been finally terminated and appeal periods have run, the parties shall take the following actions. (If IDWR does not issue a decision approving the Application as to a particular water right within one year from the date of this Agreement, either party may terminate this Agreement as to that water right.)

a) The Donee shall be responsible to file and to pay all filing fees to process the "Change of Ownership Application" to convey the water right from the Donor to the Donee after the preliminary order for the "Transfer of Water Right" notice has been issued by the IDWR.

b) The parties shall process the Transfer of Water Right with the understanding that IDWR approval of this transfer does not preclude review of the validity of the water right in the ongoing Snake River Basin Adjudication.

7. FINAL CLOSING OF THIS AGREEMENT. The closing shall occur at a mutually agreeable location within 10 days of the date of final approval of the Application. At the closing, Donor shall deliver to Donee a fully executed water right deed. The form of the water right deed is attached to this Agreement as Exhibit A.

8. DONOR'S CONVEYANCE INSTRUMENT. Donor agrees to convey title by quitclaim deed. Donor shall pay all debts, taxes, charges, and assessments against the water right existing as of the date of closing. Donor does not warrant that the use which Donor has made of the water right is sufficient to establish that the water right has not been forfeited in whole or in part; or that the quantity or quality of water available from the water source will be suitable for Donee's purpose. Notwithstanding the foregoing, Donor will at Donee's request provide to Donee any documents or information reasonably available to Donor to show the nature and extent to which the water has been applied to beneficial use.

9. DUE DILIGENCE PERIOD. Donee shall have 30 days from the date of this Agreement to perform due diligence to assess the validity, nature, extent, or status of title of the water right. During the due diligence period, Donee may terminate the Agreement if Donee, in its sole discretion, determines that a defect exists that would materially and adversely affect its intended use of the water right. Notice of termination must be delivered to Donor within 30 days of the date of this Agreement. The failure to provide notice of termination shall mean Donee has decided not to terminate.

10. TIME IS OF THE ESSENCE. Time is of the essence regarding the dates and time constraints set forth in this Agreement. The parties must agree in writing to any extensions.

Dear Water User,

Included in this mailing is your 2020 water usage Summary Sheet. This usage summary includes your water right information and groups the water rights with associated wells to help you better assess the water usage on your farm(s). It is important that you become familiar with and review in detail the information presented. Water District 143 and the Raft River Ground Water District will base your assessment amounts, in part, on the acre-feet usage presented on this summary.

Given that this is only the second year we have presented this information and that we did not hear from many of you last year, it is highly likely that mistakes exist.

Please specifically review the following items:

1. Water right information – if we are missing water rights or if any have changed or been transferred, please contact us for any corrections.
2. WMIS number – the standard well reference number used by IDWR to track wells.
3. Diversion Name – The name shown in this column was the last known common name for the associated well (what you call the well). We would like to populate this field to help when we communicate with you about your usage. Please contact us for additions and/or corrections.
4. 2020 Usage – This is the preliminary reported volume in acre-feet for each well for the 2020 irrigation season. If we do not hear from you, we will assume you agree with the number presented and it will be reported to the Department of Water Resources as official.
5. Red markings are items that require special attention. Generally, these denote missing data or suspect usage volumes. Please contact us if there are red markings on your summary.
 - a. **In the case of missing data, an estimate based on the last two years was populated. If you can provide flowmeter readings or power usage information to us, we will calculate the actual usage and provide you with a corrected summary.**
6. If you feel you have received this information in error, please contact us.

Re: Change in Ownership for Water Right No(s): 43-13184 & 43-13186

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4942.

Sincerely,

Jean Hersley
