1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Memorandum

To: Water Rights 37-496D & 37-497A
From: Justin Ferguson
Date: January 22, 2021
Re: Water Supply Bank Lease Application 1829

Purpose/Narrative: An application was received on behalf of Starweather Subdivision Property Owners Association (Starweather) on December 12, 2020 from their representative, Mr. Jim Speck. Per the information provided in the application package, Starweather is offering the entire portions of both water rights for lease to the Bank in line with their prior application from 2011 to 2016 and again in 2017 through the end of 2020.

Based on the information provided it appears the subdivision wishes to continue to idle the acreage while making the water rights available for rent within the Wood River Basin area.

Authority to File: The applications were prepared and submitted by Mr. Jim Speck on behalf of Starweather. The applications were signed by Mr. Michael P Smith as President of the Association. No concerns of the applicant's authority to file.

Water Right Validity/Forfeiture Evaluation: Historically, the water rights were decreed in 2009 and 2011 respectively prior to being offered to the Bank. With the first lease beginning in 2011 through 2016 and a subsequent lease beginning in 2017 through the end of 2020, a period of non-use without a defense against forfeiture has not lapsed. As such, the water rights remain valid and can be leased to the Bank.

Injury Evaluation: No injury is apparent to either local water users or the Big Wood River as, through this lease proposal, the water will remain within the stream channel. Proper rental review should further protect against the possibility of injury.

Enlargement of Use: No injury is apparent as the acreage is intended to remain idled through the duration of the lease contract. Further, a spatial review of the area affirms that the acreage has in fact been idled and, per climate engine data, only appears to receive irrigation in the form of natural precipitation. No concerns at this time.

Local Public Interest: Staff are unaware of any local public interests that are averse to the lease.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments: Watermaster and IDWR Southern Region comments were requested January 22, 2021

Water Supply Bank Evaluation: Based on the information presented by the applicant and pending any concerns or comments, staff recommend the lease proposal be approved for Starweather through the end of 2025
