WATER SUPPLY BANK LEASE CONTRACT No. 1367

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

14. The unleased portion of water right 34-13756 is limited to the irrigation of 0.8 acres within the place of use described above in a single irrigation season.
15. The unleased portion of water right 34-13758 is limited to the irrigation of 0.3 acre within the place of use described above in a single irrigation season.
16. The unleased portion of water right 34-13760 is limited to the irrigation of 0.3 acre within the place of use described above in a single irrigation season.
17. Right 34-13760 is an enlargement of Rights 34-13756 and 34-13758 pursuant to Section 42-1426, Idaho Code.
18. Water right 34-13760 is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.
19. The unleased portions of water rights 34-13752, 34-13754, 34-13756, 34-13758, and 34-13760 when combined shall not exceed a total diversion rate of 0.05 cfs, a total annual maximum diversion volume of 4.6 af at the field headgate, and the irrigation of 1.3 acres.

24. If the surface water right(s) appurtenant to the place of use for this right is unavailable for any reason other than drought or curtailment by priority (for example abandoned, forfeited, sold, transferred, leased, used on another place of use, or disallowed by court decree), the right holder shall not divert ground water for irrigation purposes on the land with appurtenant surface water rights without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

To whom it may concern,

Please find enclosed a completed Application to Sell or Lease a Water Right to the Water Supply Bank for groundwater rights 34-13752 and 34-13754, and Big Lost River rights 34-13756, 34-13758 and 34-13760, and a check for \$500.00 for the filing fee. These water rights are used together for the irrigation of 2.5 acres at the Church of Jesus Christ of Latter-day Saints chapel at Leslie, Idaho. 1.2 acres of irrigation at the Church property will not occur in the next few years. Thus, the Church is filing this application to place 4.2 acre-feet of water in the Idaho Water Supply Bank for the next five years. This application replaces a previous contract with the Idaho Water Supply Bank for the same water rights which recently expired at the end of 2020.

All required maps and documents are included with the application. Ownership of the application and the water rights are currently reflected in the name of the Corporation of the Presiding Bishopric of the Church of Jesus Christ of Latter-day Saints. In 2019, the name of the corporation was changed to The Church of Jesus Christ of Latter-day Saints, a Utah corporation sole. Thus, the attached 2021 W-9 reflects the new corporate name. Attached with this application is a copy of the Amended Articles of Incorporation reflecting this name change. It is not desired, however, to update the name of the corporation on all the Church's water right at this time unless needed to process this application. If it is required, we would request that only the name be updated on the respective water rights associated with this application at this time. The Articles of Incorporation are provided as documentation that the two corporate names contained in the application are one and the same.

Please let me know if you need any further information for this application or if there are questions about the name change.

Thank you for your consideration in this matter.
