The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. Water Supply Bank Lease Review Memorandum

To: Water Rights 37-7211
From: Amanda Johnson-Veibell
Date: February 12, 2021
Re: Water Supply Bank Lease Application 1842

Purpose/Narrative: The Department received a WSB lease application on December 9, 2020 for water right 37-7211. The requested lease duration was not marked on the application. A W9 was not submitted with the application as well. An information request letter was mailed to the Applicant on January 8, 2021 with a 30 day response deadline. The letter was returned on 1/22/2021 with filled out W9 and the words "same as before" hand written next to the request for the lease duration. I will be working on the assumption the lessor is requesting a 5 year lease duration.

Authority to File: This water right was decreed in the SRBA under the names Rex Garner and Sheila Daniels Gardner in 2010. Rex Garner submitted the application. As there has not been any ownership change since the SRBA decree, Mr. Garner is the owner of record and allowed to submit the application.

Water Right Validity/Forfeiture Evaluation: This water right was decreed in September, 2010 in the SRBA. This water right was initially leased to the bank in 2016 for a 5 year period (2016-2020). ArcMap imagery suggests no irrigation took place in the 2020 irrigation season. As such a full period of non-use has not elapsed since the time of the decree and the water right remains valid.

Injury Evaluation: No injury is apparent through this lease proposal. It should be noted the water right is in the Big Wood River GWMA, the ESPA Moratorium area, and Water District 37B. Proper rental review should protect against injury

Enlargement of Use: No enlargement is evident through this lease proposal. There are no overlapping irrigation water rights.

Local Public Interest: Staff are unaware of any local public interests that are averse to the lease.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments: This water right is subject to water district 37B. A request for comment was emailed to both Southern and the water district on 2/12/2021.

Water Supply Bank Evaluation: Based on the information presented by the applicant, staff recommend the application be approved through 2025.
