RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on March 05, 2021.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2021 to December 31, 2021. This Lease shall bind the parties and take effect when both parties have signed it.

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.

Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Right Nos. 21-7564, 21-7046 and 21-13202 are also diverted through points of diversion described above.

Narrative: The Department received this application on March 5, 2021. The application was signed by Cade Crapo, manager. Unit 1, LLC wishes to place the entire right in the Bank. The parent of this right was decreed in 2011. An extension of time was submitted and approved in 2015 that expires on April 1, 2021. There are no issues of forfeiture. Water right 21-7564 shares the points of diversion and there isn't enough water right to irrigation these acres. This right is currently within WD 100. There is a question if placing the right in the Bank after an extension protects the water due to the wording of the resumption of use in Idaho Code §42-222.

Re: Applications to Lease a Water Right to the Water Supply Bank for WR Nos. 21-7046 and 21-13201.

Dear Reviewing Agent:

Enclosed for processing are *Applications to Lease a Water Right to the Water Supply Bank* for WR Nos. 21-7046 and 21-13201 submitted on behalf of Juniper View LLC and Unit 1 LLC, respectively. Also enclosed is a *Special Power of Attorney for Water Rights* designating myself as an agent to act on behalf of Juniper View LLC and Unit 1 LLC on these applications. We have also included a check in the amount of \$500.00 for the necessary filing fees.

As described in the applications themselves, this water right received an extension of time to avoid forfeiture up through April 1, 2021. It was decided by the water right owners to place the water rights into the Water Supply Bank for one year, as there have been some delays in their initial plans to upgrade the wells that feed the water delivery system used to irrigate the places of use of these water rights.

We appreciate your attention to this matter. Please let me know if you have any questions or concerns.

Best regards,

Robert L. Harris

RE: Ownership of Water Right 21-13201 (*Split from 21-7046*)

Dear Water Right Holder:

On October 7, 2015 the Idaho Department of Water Resources (Department) approved an Application for Extension of Time to Avoid Forfeiture for water right 21-7046. According to our records, you are the current owner of water right 21-13201, which was split from 21-7046. One condition of the approval was that diversion and use of this water must resume on or before April 1, 2021. Failure to resume use of the water and to notify the Department of the resumed use would be cause for the water to revert back to the state and again be subject to appropriation.

I am enclosing a Resumption of Use form for your use to notify the Department of your resumption of use of the water right. Please complete the form and return it to my attention at the above address. Also enclosed is a copy of the certified letter that was sent to the applicant for extension of time.

If you have any questions regarding this matter, please call me at 208-287-4826.

Sincerely,

David Betts
Senior Water Resource Agent
