

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Amended

1. Name of applicant(s) Roger Fairchild Phone 208-739-3287
 Name connector (check one): ☐ and ☐ or ☐ and/or
 Mailing address 2667 SW 3 1/2 Ave. City Fruitland
 State ID Zip 83619 Email roger@fmtc.com
2. Source of water supply ground water which is a tributary of _____
3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
7N	5W	13			NW	SE	Payette	ground water	

4. Water will be used for the following purposes:
- Amount 0.27 for diversion to storage purposes from 1/1 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)
- Amount 10 AF for industrial storage purposes from 1/1 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)
- Amount 135 AF for irrigation from storage purposes from 3/1 to 11/15 (both dates inclusive)
 (cfs or acre-feet per year)
- Amount 10 AF for irrigation storage purposes from 1/1 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)
5. Total quantity to be appropriated is (a) 0.27 cubic feet per second (cfs) and/or (b) 145 acre feet per year (af).
6. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. Ground water to reservoir storage then to adjacent land by gravity flow to trees and to create pheasant habitat along canal banks.
- b. Height of storage dam <10 feet; active reservoir capacity <10 acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No
- c. Proposed well diameter is 10 inches; proposed depth of well is 300 feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
- e. If well is already drilled, when? _____; drilling firm _____;
 well was drilled for (well owner) _____; Drilling Permit No. _____
7. Description of proposed uses (if irrigation only, go to item 8):
- a. Hydropower; show total feet of head and proposed capacity in kW. _____
- b. Stockwatering; list number and kind of livestock. _____
- c. Municipal; complete and attach the [Municipal Water Right Application Checklist](#).
- d. Domestic; show number of households _____
- e. Other; describe fully. Growing trees which will create pheasant habitat along ditch bank. Pond will be kept full for aesthetic purposes along with storage.

WATER RESOURCES

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
7N	5W	13													5	25			30

Total number of acres to be irrigated: 30

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

none

10. a. Who owns the property at the point of diversion? Applicant
- b. Who owns the land to be irrigated or place of use? Applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Well will be used to fill pond or diverted directly into irrigation system. Industrial use is for cooling process water for vinegar distillery and cleaning of plant. Pond will continually be filled with water - evaporation losses n/a.

12. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit No. 65-23597

Dear Legal Notice Department:

Please publish the enclosed legal notice on the dates indicated (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 4/6/2015. Your cooperation is appreciated.

Sincerely,

Rachel Sommer
Administrative Assistant

Enclosures

The following application has been filed to appropriate the public waters of the State of Idaho:

65-23597

ROGER FAIRCHILD

2667 SW 3RD AVE

FRUITLAND, ID 83619

Point of Diversion NWSE S13 T07N R05W PAYETTE County Source GROUND WATER

Use: DIVERSION TO STORAGE 01/01 to 12/31 0.27 CFS

Use: INDUSTRIAL STORAGE 01/01 to 12/31 10 AF

Use: IRRIGATION FROM STORAGE 03/01 to 11/15 135 AF

Use: IRRIGATION STORAGE 01/01 to 12/31 10 AF

Total Diversion: 0.27 CFS

RE: Application for Permit 65-23597

Dear Mr. Fairchild:

We are in the process of reviewing the above referenced application for permit and find we need additional information. Enclosed, for your convenience, is a copy of the application form as it was submitted to our office.

We notice on the application form that you intend to develop a "light industrial" use. Please indicate on Item 7e what the industrial use will consist of. If the use is for a wood lot and pheasant habitat, please explain how you will beneficially use the water for these purposes.

Under item 4 on the application form, if you intend to divert water to a storage pond and then divert water from the pond for industrial purposes, you should file for "industrial storage" and "industrial from storage" uses. The "Light Industrial" use you have listed will not be necessary if the water is coming from the pond. You should also include an "irrigation storage" use so you can store water in the pond to be diverted for irrigation purposes (irrigation from storage).

We notice that your description of diverting works is not under item 6a of the application form. However, under item 11 on the form, you have indicated that you will divert ground water to a reservoir then divert from the reservoir by gravity flow. When you begin to develop your ground water source you should avoid shallow ground water as a source. If you develop shallow ground water, you may fall under Water District 65 jurisdiction and have to quit diverting water on June 15th as other junior users have to do, or rent water from the Basin 65 rental pool. You may also run into shallow ground water while developing your pond. If this happens, you may end up with two points of diversion. One point would be at the well site, and the other one in the pond. You may want to include two points of diversion on the application in case this happens.

Please also note that the place of use you have requested does not cover the area that you have indicated will be irrigated. You should include some acres in the NE¼/SE¼ (under item 8a on the form) if you intend to irrigate the area shown on the map attached to the application.

I have included another blank application form for your use. Please complete the form with the above suggestions, sign and return it to this office. I have also included an "Application for Construction or Enlargement of a New or Existing Dam" form. We need both forms for the proposals shown on the application you originally submitted.

Please submit the revised application for permit and dam safety application to allow our review to be completed. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. Your response or a request for more time to seek the information must be submitted within the next sixty (60) days. The application will be voided without a timely written reply.

If you have any questions or need assistance with the above, please feel free to contact our office.

Sincerely,

A handwritten signature in black ink that reads "Kay Walker". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

KAY WALKER
Sr. Water Resource Agent
