Re: Change in Ownership for Water Right No(s): 22-12019

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4942.

Sincerely,

Jean Hersley

Subject: Notice of Change in Water Right Ownership for Idaho water right 22-12019

Mr. Norton,

The Idaho Department of Water Resources received your request to update the ownership of water right 22-12019. Would you like the Department to split this water right? Each parcel would have their own stockwater right with 0.01 cfs per parcel. However, the rights would have the same point of diversion and would be limited to 13,000 gallons per day combined. Please let me know within 30 days how you would like the Department to proceed. If the Department does not receive a response within 30 days, the water right will not be split. Please let me know if you have any questions. Thank you.
