PROOF DEFICIENCY LETTER

RE: Permit No. 63-34989

Dear Permit Holders:

The Department received the proof of beneficial use (proof) form submitted for the above referenced permit. The proof is not acceptable without the correct fee. A copy of the form is enclosed for your reference.

This permit authorizes a diversion rate of 0.06 cfs (cubic feet per second) requiring a license examination fee of \$50.00. During review of your proof statement and the permit listed above, I noticed that you stated a rate of diversion different from the maximum diversion rate allowed under this permit. You stated on your proof that your total storage volume is 2.7 acre feet, however, this permit authorizes a maximum diversion rate of 0.06 cfs. The proof also lists 4.99 acres irrigation, this permit does not authorize irrigation use. Diversion of water under this permit is limited to the authorized amount. It appears from the application for this permit that the information listed on the proof statement may refer to irrigation use through Boise Project Board of Control/Boise/Kuna Irrigation District. This permit authorizes domestic and stockwater use only.

Please submit the required fees at your earliest convenience before the proof due date of **March 01, 2022** to avoid the possibility of your permit lapsing. If you have any questions concerning this matter, please contact me at (208) 287-4920 or debby.judd@idwr.idaho.gov.

Sincerely,

Debby Judd
