Application for Amendment
(For Licensing Purposes)
Water Right No. 1-10626

Priority: June 19, 2013

Maximum Diversion Rate: 87.30 CFS

Maximum Diversion Volume: 9,180.0 AF

The owner and holder of Permit to appropriate the Public Waters of the State of Idaho No. 1-10626

SNAKE RIVER VALLEY IRRIGATION DISTRICT PO BOX 70 BASALT ID 83218-0070

requests the permit be changed as follows:

Source : SNAKE RIVER

Tributary: COLUMBIA RIVER

Beneficial Use

GROUND WATER RECHARGE

Period of Use

01/01 to 12/31

Rate of Diversion

87.30 CFS

Annual Volume

9,180.0 AF

Location of Point(s) of Diversion

SNAKE RIVER L2 (NE¼ SW¼ NW¼), Sec. 15, Twp 01N, Rge 37E, B.M. BONNEVILLE County

Place of Use: GROUND WATER RECHARGE

Water Right No. 1-10626

FOR DEPARTMENT USE ONLY

Preliminary check by _____ Fee = \$100 Received by _____ # C109922 Date 2/16/21

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources hereby approves the above Application for Amendment for Permit No. 1-10626 with the following:

Conditions of Approval

1. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
3. Water may only be diverted under this right in an amount that does not reduce flows in the Snake River below 2,070 cfs measured in the Snake River at Blackfoot U.S.G.S. Gage No. 13062500.
4. Water may only be diverted for recharge under this right when 2,700 cfs or more is flowing past Minidoka Dam.
5. Absent engineering controls to prevent fish entrainment into recharge facilities, when any amount of water is available for diversion under this right, and after consultation by the right holder with the Idaho Department of Fish and Game, the amount of water diverted under this right from the river will be adjusted up and down at a rate which minimizes the possibility of fish entrainment in the recharge facilities. Provided, however, that flows diverted into recharge facilities may be adjusted, without consultation, by Water District No. 1 personnel consistent with its statutory duties to regulate and adjust diversions when all or a portion of this right is no longer in priority.
6. Diversions off of the right holder's private canals to designated off-canal recharge sites shall be designed and constructed as necessary to minimize negative impacts to fish. The right holder shall provide information concerning the design of such diversion structures to the Idaho Department of Fish and Game for review and comment prior to construction.
7. Upon a good faith request from the Idaho Department of Fish and Game, the right holder shall meet to discuss and attempt to resolve in good faith any concerns associated with the exercise of this right and potential negative effects on fish and wildlife resources.
8. This right is subject to all applicable provisions of Section 42-234, Idaho Code.
9. Pursuant to Section 42-234(4), Idaho Code, to ensure that other water rights are not injured by the operations of the recharge project authorized by this right, the Director has authority to approve, disapprove, or require alterations in the methods employed to achieve ground water recharge.
10. Pursuant to Section 42-234(3), Idaho Code, the Director may reduce the amount of water that may be diverted for recharge purposes under this right even though there is sufficient water to supply the entire amount authorized for appropriation under this right.
11. Approval of this permit does not constitute approval by the Idaho Water Resource Board as may be required pursuant to Section 42-1737, Idaho Code.
12. The right holder shall record the daily quantity of water diverted for ground water recharge and shall report the diversion data for the prior calendar year to the Department by February 1 each year. Reporting shall occur in the manner specified by the Department, consistent with Section

State of Idaho
Department of Water Resources
Application for Amendment
(For Licensing Purposes)
Water Right No. 1-10626

42-701, Idaho Code. To facilitate this reporting requirement, the right holder shall install and maintain a totalizing measuring device approved by the Department at each point of diversion and at each point where water is delivered from the conveyance system into a designated recharge site.

13. Consistent with Section 42-234(5), Idaho Code, seepage from canals incidental to delivery of irrigation water shall not be considered ground water recharge under this right. Canal seepage will be considered to be ground water recharge only when the canals are not conveying water for irrigation or other beneficial uses.
14. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
15. This right does not grant any right-of-way or easement across the land of another.

This amendment is issued pursuant to the provisions of Idaho Code § 42-211.

Signed this 15th day of March, 2021.
