

APPLICATION FOR PERMIT

To Construct a Reservoir and Appropriate and Store
The Public Waters of the State of Idaho

Application No. R 38388
Permit No. R 1104

Lewis Doschamps
RFD #1
Malad, Idaho

1. Name of Applicant: St. John Irrigating Company

Post office address: RFD #1, Malad

County Onaida

State Idaho

If applicant is a corporation, give:

March 6, 1888

Date and place of incorporation: Reincorporated August 18, 1925, Malad, Idaho

(c) Amount paid in: \$256,000.00

(d) Names and addresses of directors:

Lewis Doschamps, Milton T. Jones,
Oscar Larsen, Nolan Blaisdell,
Calvin Dredge, all of RFD #1, Malad, Idaho

11. The financial resources of the corporation are:

(a) Cash on hand: \$1000.00

(b) Treasury Stock: \$ None

(c) Bonds to be issued: \$ None

(d) Other resources: Water rights and ditch rights,
canals and Little Malad Riv.

2. Quantity of water to be stored: 9,500

acre feet per annum.

3. Source of water supply is Little Malad River (Creek) (River) (Spring), a tributary of Malad River

River.

4. The outlet of the proposed reservoir is located 800 feet, distant from the Southeast corner of Section 26, Township 12 S., Range 34 E., B.M. and is in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 26, Township 12 S., Range 34 E., B.M. County of Onaida

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of the Little Malad River

(Creek) (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located

feet distant from

the corner of Section, Township, Range, B.M., and is in the (bearing) $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range, B.M.; width at bottom feet, width at top feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second

6. (a) The area of the high water line of the reservoir is approximately 351

acres.

(b) The reservoir capacity is 9500

acre feet.

7. Height of reservoir dam 80 feet, length at top 650 feet, length at bottom 150 feet, size of outlet 4 feet by 3 feet. The dam is to be constructed of materials as follows: Compacted earth fill with stone and gravel on both faces; spillway and outlet works to be of reinforced concrete.

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of

Little Malad River (Creek) (River)? No

(b) Water stored in reservoir will be carried in the channel of Little Malad River

(Creek) (River) a distance

of about 4 and 7 miles points miles to point of diversion located (bearing) feet, distant from the corner of Section Township, Range, B.M., and in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section Township, Range, B.M.

9. (a) Area of watershed above dam site Little Malad River watershed of about 30

square miles.

(b) Estimated maximum flow of stream about 20

cubic feet per second.

10. Water is to be used for Irrigation and culinary

purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water feet, distant from Corner of Section, Township, Range, B.M., and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range, B.M.

(b) Amount of power generated: H.P., under feet head

(c) Water is to be returned to (Creek) (River) (Spring) at a point distant from the corner of Section, Township, Range, B.M. in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range, B.M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal / existing distribution system of the St. John Irrigating Company

13. Kind of diversion works: Existing diversion work of said Company (Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width feet, Height feet.
16. Diversion Canal: Width at bottom feet, width at water line feet, depth of water feet, Dimensions of Flume feet.
- Diameter of Pipe inches; Length of Conduit miles. Average grade per mile feet.
17. Estimated Cost of Works: Storage Works: \$ 150,000.00 Diversion Works: \$
18. Time required for completion of work five years.
19. Time required for complete application of water to proposed beneficial use is six years.
20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
			All Class 1 and 2 arable lands in Townships 13 and 14 South, Ranges 35 and 36 East, Boise Meridian, of about 8000 acres, as further shown by sectional maps filed with and in connection with Permit No. R-1005 made a part hereof by reference.																
			Total number of acres to be irrigated - - -																about 8000

Total Number of Acres to Be Irrigated

21. Existing rights and/or valid permits appurtenant to lands described above are The St. John Irrigating Company has the prior right to the natural flow of the waters of the Little Malad River.
- REMARKS: This application is to secure stored supplemental water rights to said lands. The maps and plats which accompanied permit No. R-1005, under Application No. R-33947, filed with the Department of Reclamation of the State of Idaho, are referred to and made a part of this application by reference.

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and appropriate and store the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

St. John Irrigating Company, Applicant.

By s/ Lewis Deschamps, President, Agent.

Date of first receipt at Department of Reclamation: 3:00 P.M. January 9, 1962

Returned to applicant for correction:

Corrected application received:

APPROVAL OF STATE RECLAMATION ENGINEER

The number of this permit is R 1104

Recorded in book R 5, page 1104. Approved February 23, 1962

This is to certify that I have examined the within application for a permit to construct a reservoir and appropriate and store the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ 1000.00, to be filed on or before April 24, 1962

Work to begin on or before April 24, 1962 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before August 23, 1964

The whole of said work to be completed on or before February 23, 1967

Beneficial use of water stored in accordance herewith, to be made on or before February 23, 1973

Witness my hand this 23rd day of February, 1962.

s/ RALPH W. THOMAS
Deputy State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLIE, Governor of the State of Idaho, and ARNOLD WILLIAMS,

Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 23rd day of February, 1962.

COUNTERSIGNED

STATE OF IDAHO

By s/ ARNOLD WILLIAMS

Secretary of State.

By s/ ROBERT E. SMYLIE

Governor.

(SEAL)

APPROVAL OF EXTENSION OF TIME ✓

I, R. Keith Higginson, State Reclamation Engineer of the State of Idaho, hereby extend the time for the completion of construction work under Permit to Appropriate the Public Waters of the State of Idaho, No. R-1104, to February 23, 1968.

Witness my hand this 12th day of January, 1967.

Department of Reclamation

December 7, 1961

Mr. Geo. N. Carter
State Reclamation Engineer
Department of Reclamation
Boise, Idaho

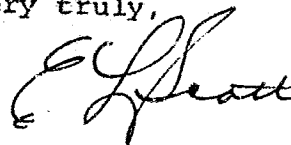

Dear Mr. Carter:

I am enclosing Application for Permit of the St. John
Irrigating Company of Malad City, Idaho, to appropriate
the waters of the Little Malad River for storage purposes.

Also, I enclose my check in sum of \$14.25 to cover filing
fee.

Please issue the Permit and oblige.

Very truly,

R-1104

December 8, 1961

Re: Application for Permit
St. John Irrigating Co.

E. L. Scott
Attorney at Law
Malad City, Idaho

Dear Mr. Scott:

Returned herewith is the application for permit to store water with attached check for \$14.25 filing fee.

The quantity of water to be stored must be shown under No. 2 of the application. The second part of 3 has been changed in pencil to Malad River as Little Malad River is a tributary of the Malad River. The second part of 8 (a) is answered no.

The amount of filing fee indicates that a notice of application must be published in an Oresida County paper for three successive weeks, Idaho Code 42-203. This section does not refer specifically to stored water, however it relates back to 42-202 wherein the fees for the application provide that one cubic foot per second is equal to 250 acre feet.

Kindly complete the application at your earliest convenience and return for processing.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Application for Permit
St. John Irrigating Co.

Mr. Ralph W. Thomas
Deputy State Reclamation Engineer

Dear Mr. Thomas:

I am enclosing the application of the St. John Irrigating Co. to appropriate the waters of the Little Malad River, amended to conform to your letter of December 8. Also, I am enclosing my check in sum of \$6.00 representing filing fee computed under the provisions of Sec. 42-203, Idaho Code.

I am certain that no notice must be published pursuant to Idaho Code Sec. 42-203, as the amount of claimed certainly would not reach the 25 c.f.s. figure provided under this section.

Thanking you kindly, I remain,

Very truly,

E. L. Scott

R-1104

December 18, 1961

Re: Application for Permit
St. John Irrigating Co.

E. L. Scott
Attorney at Law
Malad City, Idaho

Dear Mr. Scott:

Returned herewith is the application for permit with the attached check for \$6.00, for the second time.

The amount claimed, 9500 acre feet, divided by 250 acre feet gives 38 units. The fee for the first unit is \$5.00, plus \$0.25 for 37 units, \$9.25 additional, or a total of \$14.25, which was the amount you remitted the first time.

The former permit was filed November 10, 1955, claiming 9500 acre feet of water. The legal notice of the application was published November 24, 1955 to December 15, 1955. The application was protested however the protests were withdrawn later and the application was approved December 10, 1956.

The maximum amount of water which can be allowed without publication is 6250 acre feet of storage for which the filing fee is \$11.00.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Mr. Louis Deschamps, President
St. John Irrigating Company
Malad, Idaho

Dear Mr. Deschamps:

I have the copy of the St. John Irrigating Company's application for a loan and grant under the Small Reclamation Projects Act.

On Page 16 we note that the St. John Irrigation Company recently purchased the 625 acre foot water right to permit transfer of the storage to the Daniels Reservoir.

It appears that this 625 acre foot of storage is to be used on other lands than that to which the water was licensed, also that it is proposed to change the point of diversion.

This being true, an application for transfer to other lands and a change in point of diversion should be filed with the Department of Reclamation.

In any event the Department requires a record of all water right transfers.

Please advise, as soon as possible, what the conditions are regarding the transaction referred to above.

It may be important to note in the application that a proper transfer of water right has been effected.

Very truly yours,

CARL E. TAPPAN, Assistant
State Reclamation Engineer

Dear Mr. Deschamps:

Returned herewith is the bond signed by you and Mr. Calvin Dredge, also enclosed is a blank form.

It would seem that officials of the Company should not sign the bond. Could you obtain two independent men to sign the blank form?

Kindly return at your earliest convenience. The 40 days allowed on the notice sent you January 21, 1964 will soon be passed.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Att: Mr. Keith Higginson

Re: Permit R-1104
St. John Irrigating Co.

Dear Mr. Higginson:

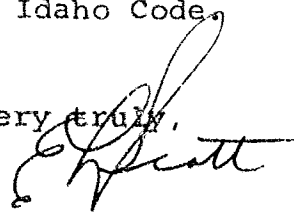

The St. John Irrigating Company is in receipt of the Department's request for Proof of Completion of Works under the above permit. We certainly would like to be in a position to make final proof within the time allotted, but it appears that we are going to have to have an extension of time within which to make completion and submit proof.

As you know, the Company on November 22, 1965, entered into a contract with Rogers Construction Company for the construction of a dam under the above permit, and under the terms thereof would be given 365 days within which to complete construction.

It now appears that the construction will not be completed until early Spring of 1967 because of adverse weather conditions which will delay the contractor in his work. The Company has exercised all due diligence possible to comply with the conditions of the Permit.

Please consider this an application for extension of time for the completion of works under Permit No R-1104, and request that an additional one year extension be granted under the provisions of Sec. 42-204 Idaho Code.

Very truly,

E. L. Scott

JAN 11 1967

Application for Extension of Time for Completion of Works

State of Idaho

ss.

Permit No. R-1104

County of Oneida

Lewis Deschamps, President of the St. John Irrigation Company, of Oneida County State of Idaho, being first duly sworn, upon his oath deposes and says:

the St. John Irrigation Company
That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho No. R-1104.

That under the terms and conditions of said permit, construction work thereunder was required to be completed by February 23, 1967.

That ~~he~~ heretofore ~~performed~~ the following work described under said permit: has been performed: A written contract for the construction of the dam described in said permit was entered into by the St. John Irrigation Company with Rogers Construction Company on November 22, 1965, by the terms of which the dam was to be completed within 365 days. Because of bad weather and unforeseen difficulties encountered in grouting the base of the dam, the construction has not been completed. It is estimated that the dam in its present condition is 70% complete, and additional time is necessary for completion, approximately two months

Costing \$

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: Severe winter weather has delayed the filling of the earth fill to the dam.

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the completion of works under said permit to February 23, 1968.

Subscribed and sworn to before me this 7th day of January, 1967.

My commission expires May 19, 1967

Date of receipt at office of Department of Reclamation January 11, 1967

Re: R-1104

Lewis Deschamps
St. John Irrigating Co.
Route #1, Malad, Idaho

Dear Sir:

The date for Completion of Works under your Permit No. R-1104 was set for February 23, 19 67. We are enclosing blank forms which you may use to notify this department of your intention to submit proof of completion of works. These are to be completed and forwarded to this office by registered mail at least 60 days before the above date. When this notice is received we will forward it, to a paper in your county which you designate, for publication.

The proof may be taken at any place convenient to you and two disinterested witnesses where there is a notary or other officer authorized to administer oaths.

Under some circumstances, as specified in Sec. 42-204 Idaho Code, where works have not been completed, an extension of time can be granted. In the event proof is not made and extension is not requested, or granted, the permit will be subject to cancellation.

The law requires that another proof be submitted when the water has been fully applied to a beneficial use which will be due Feb. 23, 19 73. If, however, the full use of the water is presently being made you may wish to make proof of beneficial use also at this time. If so, forms will be forwarded to you upon request.

Very truly yours,

R. KEITH HIGGINSON

State Reclamation Engineer

Keith Higginson
State Reclamation Engineer
State House
Boise, Idaho

Dear Mr. Higginson:

The St. John Irrigating Company has accepted as complete the dam at the Daniels dam site in Oneida County.

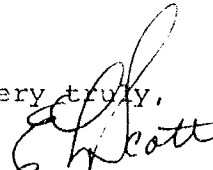

I talked with Mr. E. K. Thomas of the Bureau of Reclamation yesterday, and it is their intention to construct measuring devices around the reservoir to determine stream flow in and out of the reservoir. He suggested that we take this matter up with you as quite frequently the various States have regulations concerning measuring devices.

The Company and the Bureau of Reclamation people are meeting at the dam site on Tuesday November 14th at 10:30 A.M. to consider this matter.

I would appreciate having your views and comments before the meeting.

Thanking you kindly,

Very truly,

E. L. Scott

ELS:eh

R-1109

November 13, 1967

Mr. E. L. Scott
Attorney at Law
Malad City, Idaho

Dear Mr. Scott:

Your letter of November 7, 1967 asks for information concerning the requirements of this department for measuring device around the recently completed Dawdels Dam in Oneida County.

Your attention is invited to the provisions of Sec. 42-207, Idaho Code. This section requires any reservoir company to install a measuring device above the reservoir for the purpose of determining the natural flow of the stream. However in the event that all of the water of the stream is controlled and owned by the same company such measurement would not be necessary. It is possible that if a staff gage is installed on the dam face that it would serve to determine the quantity of water stored in the reservoir at any time and would reflect increases and decreases caused by change in the rate of inflow.

Therefore, if the St. John Irrigating Company is required to bypass natural flow waters at the reservoir site to satisfy prior downstream water rights held by other parties, a measuring system must be installed.

We will be happy to discuss this matter with you, if you so desire.

Very truly yours,

R. KEITH HIGGINSON
State Reclamation Engineer

Malad, Idaho

Gentlemen:

Proof of completion of works ~~and application of water to beneficial uses~~ for the above referenced permit is due not later than February 23, 1968.

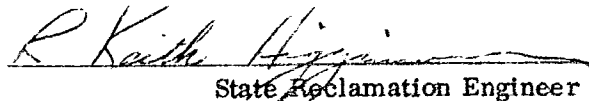

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

State Reclamation Engineer

RELINQUISHMENT

Re: Permit No. R-1104
St. John Irrigating Company

E. L. Scott
26 Court Street
Malad City, Idaho

This acknowledges receipt of the notice of intent to make proof of completion of works ~~and application of water to beneficial use~~ for permit R-1104.

We have mailed the notice to the Idaho Enterprise to be published once a week for four consecutive weeks prior to January 26, 1968, which is the hearing date when the permit holder St. John Irrigating Company and two disinterested witnesses must appear before E. L. Scott, notary public, to complete the enclosed depositions. The witnesses must be familiar with the works and permit.

After the hearing, the depositions and an affidavit of publication must be submitted to this office. The affidavit may be obtained from the newspaper when the advertising bill is paid by St. John Irrigating Company by E. L. Scott. Be sure all the forms have the notary's seal and are signed.

Please feel free to contact us if we may be of any assistance.

~~THE~~ CONVEYANCE OF WORKS

DEPOSITION OF WITNESS

The deposition of two witnesses on this form, taken separately, required in each case.

Ques. 1 State your name, age, residence, occupation and postoffice address:
Pete Thomas; Age 75 years; Residing at Malad City, Idaho; Farmer;
Farmer; P. O. Address: Malad City, Idaho

Ques. 2 Are you acquainted with St. John Irrigating Company, the holder of
Permit No. R 1104 ? How long have you known him and where does he reside? It is a
water corporation of the State of Idaho; it has been in existence all of
my lifetime. It has principal place of business in Oneida County, Idaho

Ques. 3. Have you read or heard said Permit No. R 1104 read, and are you familiar
with its provisions and conditions: Yes Yes No. _____

Ques. 4. State source of water supply: The waters of the Little Malad River
Give location of place of diversion, showing subdivision, section, township and range
SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 26, Township 12 South, Range 34 East, Boise Meridian

Describe works for conveying water to place of use: The channel of the Little Malad
River, and the Distribution system of the St. John Irrigating Co. in Oneida
County, Idaho

Ques. 5. How many second feet of water do you estimate said works will safely conduct
to place of use: approximately 20 cfs How much water have you seen being so
conveyed? flow varies between 6 cfs to 20 cfs

Ques. 6 If for irrigation, show number of acres irrigated in each subdivision, giving
full legal description:

Water is being stored under reservoir permit; water is to be used
for irrigation purposes upon the Class 1 and Class 2 arable lands in
Townships 13 and 14 South, Ranges 35 and 36 East, Boise Meridian, of som
8000 acres

R-1104

Ques. 7. If for other than irrigation purposes, show full legal description of place of use, and state purpose for which water is used.

Storage permit during non-irrigation season

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Generally the lands to be served by this water are a loamy soil which requires approximately one miners inch per acre for profitable cultivation

Ques. 9. Have you any ownership interest in the works, water or lands above mentioned? If so, in what way and to what extent? Yes. I am a stockholder. I am also a

Director of the St. John Irrigating Company

Ques. 10. When did you first see this water ~~used~~? stored, The gates were closed the first part of October, 1967
Other times you have seen such use: _____

The gates have been closed and the water stored ever since.

Describe works for conveying water to place of use: The channel of the Little Malad
River, and the Distribution system of the St. John Irrigating Co. in Oneida
County, Idaho

Ques. 5. How many second feet of water do you estimate said works will safely conduct
to place of use: approximately 20 cfs How much water have you seen being so
conveyed? flow varies between 6 cfs to 20 cfs

Ques. 6 If for irrigation, show number of acres irrigated in each subdivision, giving
full legal description:

Water is being stored under reservoir permit; water is to be used
for irrigation purposes upon the Class 1 and Class 2 arable lands in
Townships 13 and 14 South, Ranges 35 and 36 East, Boise Meridian, of some
8000 acres

Ques. 7. If for other than irrigation purposes, show full legal description of place of use, and state purpose for which water is used.

Storage permit during non-irrigation season

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Generally the lands to be served by this water are a loamy soil which requires approximately one miners inch per acre for profitable cultivation

Ques. 9. Have you any ownership interest in the works, water or lands above mentioned?

If so, in what way and to what extent? Yes. I am a stockholder. I am also a Director of the St. John Irrigating Company

Ques. 10. When did you first see this water ~~used~~ stored? The gates were closed the first part of October, 1967

Other times you have seen such use: _____

The gates have been closed and the water stored ever since.

(Signed):

Walter J. Blaindell

**NOTICE OF PROOF OF
COMPLETION OF WORKS**

NOTICE IS HEREBY GIVEN THAT ON THE 26th day of January, 1968, at Malad, County of Oneida, State of Idaho, before E. L. Scott, Notary Public at 26 Court St., Malad, Idaho, proof will be submitted of Completion of Works for the diversion of 9500 acre feet of storage, waters of Little Malad River in accordance with the terms and conditions of Permit No. R-1104 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is St. John Irrigating Company, Route 1, Malad, Idaho.

2. Said works of diversion of water for storage will be fully completed on the date set for such completion and the amount of water which said works are

capable of conveying to the place of storage is 9500 acre feet per annum.

3. Reservoir capacity is 9500 acre feet.

4. The use to which said water will be applied in irrigation and culinary purposes, and the amount applied to beneficial use will be 9500 acre feet.

5. The point of diversion of said waters is SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 26, T. 12 S, R. 34 E, B. M., Oneida County, and the amount which can be diverted is 9500 acre feet per annum.

6. The place where said water will be used is all Class 1 and 2 arable lands in Townships 13 and 14 South, Ranges 35 and 36 East, B. M. of about 8000 acres.

7. The date of priority which said user is prepared to establish is January 9, 1962.

Re: Permit No. R-1104

St. John Irrigating Company
Route #1
Malad, Idaho 83252

Gentlemen:

We are returning the depositions of two witnesses taken in connection with the proof of completion of works submitted in connection with Permit No. 1104.

Please be advised that the depositions are not acceptable as both have stated under Question 9 that they have ownership interests in the project. We have consulted the Attorney General's office and he has indicated that a stockholder is not an acceptable witness. In order to comply with the existing statutes, the witnesses can not have ownership interests in the project.

We are enclosing two new blank depositions. Please have new witnesses complete the forms and return them to the department for processing. Please contact us if we may be of further assistance.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Malad, Idaho 83252

Dear Mr. Deschamps:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit R-1104 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to submit adequate proof of completion of works due February 23, 1968,

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before July 22, 1968, why said permit should not be cancelled.

Permit R-1104 claims the use of 9,500 acre feet per annum of water. The point of diversion was to be located SE 1/4 Sec. 26, T. 12 S, R. 34 E, B.M., Oneida County,

and the permit was approved February 23, 1962.

Re: Permit No. R-1104

Dear Mr. McEldowney:

I am enclosing the depositions of Varcel Christofferson and William G. Jenkins in connection with the proof of completion of works.

Also, I enclose the two previous depositions of Pete Thomas and Nolan Blaisdell which were previously submitted and which were returned as non acceptable because of the alleged ownership of stock interest in the Company. I ask that you please file these two depositions along with the other proofs in connection with the Completion of works. It is my thinking that the fact of their interest in the Company might possibly affect the credibility of their statements, but nevertheless have tremendous value regarding the matters which they testify to.

Thanking you kindly, I remain

Very truly,

E. L. Scott

DEPOSITION OF HOLDER

Ques. 1. State your name, residence occupation and postoffice address: Louis Deschamps;
Residing in Oneida County, Idaho; Farmer.
P.O. Address: RED#1, Malad, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf: St. John Irrigating Company; Principal place of business at St. John, Oneida County, Idaho; I am President of the St. John Irrigating Company

Ques. 3. State number, approval date of permit, and date of priority: R 1104; approved
February 23, 1962; Date of Priority of February 23, 1962

Ques. 4. State source of water supply: Little Malad River in Oneida County
Give location of point of diversion, showing subdivision, section, township and range
SE¹SE¹ of Section 26, Township 12 South, Range 34 East, Boise Meridian

Ques. 5. Describe your works of diversion: Compacted earth fill dam with stone
and gravel on both faces complete with concrete spillway and controlled outlets
; state amount of water they are capable of con-
veying from point of diversion to place of use: about 20 cfs ; Give name of canal or ditch
or other works by which water is conducted to such place of use: Channel of the Little
Distribution system of the Company
Malad River, and / ; if a well, state depth of well - - ; depth and size of
casing ; depth to water ; if pump is used,
state discharge of pump: ; tell how it was measured or determined
 ; if sprinkler irrigation, give number and size
of nozzles and operating pressure:

Ques. 6. State for what purpose water is used: Storage, and ultimate use for irriga-
(If for irrigation, name each subdivision in which used and number of acres in tion
each subdivision that have actually been irrigated with said water:

All Class 1 and Class 2 arable lands in Townships 13 and 14 South,
Ranges 35 and 36 East, Boise Meridian, of about 8000 acres

State nature of all improvements which have been made as a direct result of said use:
Dam and Reservoir constructed on the Little Malad River; at a cost of some
\$722,994.34; Irrigation Structures constructed at cost of \$11,827.72;
Inverted Siphon at Cost of some \$14,460.45; Total Contract cost \$751,306.00
Ques. 6-a: If this is a ground water permit, give name and address of person that drilled

the well: _____

Ques. 7. If for other than irrigation purposes, show full legal description of place
of use and state purpose for which water is used:

Reservoir and Storage permit.

Ques. 8: If you are not the person or representative of the corporation to whom above
mentioned permit was originally issued, please state how ownership was acquired by
present holder:

Quest. 9: State when and in what amount the water diverted under above mentioned permit
has been first used: _____ - Time used since first use:

Dam was completed and approved for payment on October 19, 1967

Ques. 10. Describe all other water rights appurtenant to same place of use: _____

NOTICE OF PROOF OF COMPLETION OF WORKS

NOTICE IS HEREBY GIVEN THAT ON THE 28th day of January, 1968, at Malad, County of Oneida, State of Idaho, before E. L. Scott, Notary Public at 26 Court St., Malad, Idaho, proof will be submitted of Completion of Works for the diversion of 9500 acre feet of storage, waters of Little Malad River in accordance with the terms and conditions of Permit No. R-1104(heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is St. John Irrigating Company, Route 1, Malad, Idaho.

2. Said works of diversion of water for storage will be fully completed on the date set for such completion and the amount of water which said works are

capable of conveying to the place of storage is 9500 acre feet per annum.

3. Reservoir capacity is 9500 acre feet.

4. The use to which said water will be applied in irrigation and culinary purposes, and the amount applied to beneficial use will be 9500 acre feet.

5. The point of diversion of said waters is SE1/4 Sec. 26, T. 12 S, R. 34 E, B. M., Oneida County, and the amount which can be diverted is 9500 acre feet per annum.

6. The place where said water will be used is all Class 1 and 2 arable lands in Townships 13 and 14 South, Ranges 35 and 36 East, B. M. of about 8000 acres.

7. The date of priority which said user is prepared to establish is January 9, 1962.

Dear Mr. Deschamps:

We acknowledge receipt of the depositions and affidavit of publication in the
Idaho Enterprise submitted as proof of com-
pletion of works ~~and beneficial use~~ on Permit R-1104.

Before a certificate ~~and license of water right~~ can be issued, a field
examination must be made by a representative from this department. We
cannot tell just when this examination will be made, but our field examiner
will try to contact you at the time he makes the examination so that you
may show him the system.

Very truly yours,

Source of supply Little Malad River
a tributary of _____

Location of P.D.(s) SE 1/4 SE 1/4 Sec 26 Twp 12 S Rge 34 E

Water is used for irrigation

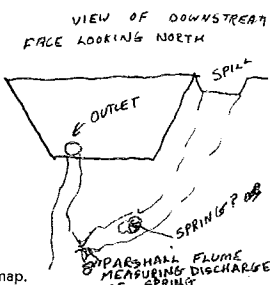

Quantity of water found _____

How was the measurement made? _____

Measurement calculations Figures from John Grubb Soil Conservation Service Representative at Malad.

Maximum flood pool 14,900 A.F.
Capacity of Active storage pool 9,600 A.F.
Average annual maximum 8,000 A.F.
Mr. Grubb indicated that these figures were submitted with the Company proposal to the S.C.S., but are the only figures I could locate relative to the storage capacity.

Diversion works description and diagram
Earth filled dam
70' height and 60' crest
length. 4' diameter cement
culvert through dam for
outlet. Spillway at east
abutment 40' wide x 20' deep.

Indicate area irrigated in each subdivision on the map.
Total acreage irrigated _____

If water is used for purposes other than irrigation, fully describe how the water is used and what is done with it after the use.

Some domestic use is claimed on the application. Recommend that nature, extent and place of this use be determined by beneficial use exam.

Who represented the permit holder at the examination?

John Grubb, Soil Conservation Service rep. at Malad

Recommended allowance for licensing 9,500 A.F.

Description of required amendments. Comments. Recommended volume for licensing is the quantity to be stored as requested by the applicant, although evidence from the Soil Conservation Service indicates actual capacity of the Daniels Reservoir is 14,900 A.F.

Re: Permit No. R-1104/15-2080

St. John Irrigating Company
RFD #1
Malad, Idaho 83252

Gentlemen:

One of the conditions of approval of your water Permit No. R-1104/15-2080 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 23, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. R-1004/15-2080

St. John Irrigating Company
RFD #1
Malad, Idaho 83252

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As you have any questions regarding this matter, please contact us.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. R-1104/15-2080)

In the name of ST. JOHN IRRIGATING COMPANY)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

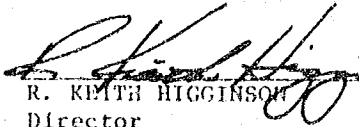

WHEREAS, on August 1, 1968, the Department of Water Administration (formerly the Department of Reclamation) adopted Rules of Practice and Procedure for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. R-1104/15-2080 was issued previous to this date;

NOW THEREFORE, the requirements for completion of the above numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedure as follows:

1. The above numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.

Dated this 7 day of December, 1973.

R. KEITH HIGGINSON
Director

Certificate of Completion of Works

To All Whom It May Concern:

This is to certify that St. John Irrigating Company
of Malad, County of Oneida and State of
Idaho, the holder of Permit No. R-1104, issued upon
Application No. R-38388, bearing date of priority of January 9, 1962,
authorizing the construction of a reservoir, with the right to appropriate and store 9,500
acre feet per annum of the waters of Little Malad River
a tributary of Malad River, in the County of Oneida,
State of Idaho, for irrigation and culinary purposes,
has fully complied with the provisions of the laws of the State of Idaho relating to the proof
of completion of the works set out and described in said Permit; that said works include a
dam and reservoir adequate for the storage of 9,500 acre feet of water per
annum, with adequate diversion works and conduit to the reservoir, and a conduit capable
of conducting said water to the place of intended use; that the point of outlet of said res-
ervoir is located in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 26, Township
12 S, Range 34 E, and that the place of use, or the lands proposed
to be irrigated by the use of said water, are described as follows, to wit:
All Class 1 and 2 arable lands in Townships 13 and 14 South, Ranges 35 and 36 East,
Boise Meridian, of about 8,000 acres, as further shown by Sectional maps filed with
and in connection with Permit No. R-1005 made a part hereof by reference.

Witness my hand this 28 day of December, 19 73

MEMORANDUM

TO: File

FROM: Anthony Kozlowski **ARK**

RE: 15-2080 Bureau of Land Management one-fourth share

DATE: March 29, 1978

Point of diversion above reservoir - SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14, T. 12S, R. 34E,
B.M., Oneida County.

Water is diverted below a spring, tributary to the Little Malad River, at a point located above Daniel's Reservoir. Water is pumped directly from the Little Malad River at a rate of 20 gpm or 0.04 cfs into a pipeline which conveys the water a distance of three miles uphill and into a 40,000 gal. storage reservoir. The storage is necessary to provide water at a rate greater than 20 gpm when the demand exceeds the rate of diversion. Stored water backflows down through the pipeline via gravity and is rediverted into a series of five stockwatering troughs which service stockwater to portions of Sec. 20, 21, 29, 32, 33, all in T. 12S, R. 34E. The storage tank is located in White Hollow at an elevation of approximately 7,000 ft. above mean sea level in the NW $\frac{1}{4}$, Sec. 29, T. 12S, R. 34E, B.M., Oneida County.

The BLM operates this water system and range land only two out of every three years, and in any one given year uses either a general season (May 20 - Sept. 20), a spring season (May 20 to July 20), or a fall season (July 20 - Sept. 20), depending upon the condition of the range land. The total quantity of range cattle using this system during any given season is 1,000 head.

Dear Wateruser:

This letter represents a second attempt to determine the quantity and location of lands you own that are being irrigated with St. John Irrigation Company storage water. This information is necessary to insure that the land you are irrigating becomes licensed as part of the total system. As a stockholder in the company, we are again requesting that you supply to the Department of Water Resources the following information.

- 1) The total number of acres of land that you own and irrigate with St. John Irrigation Company water.
- 2) A legal description of the land irrigated (number of acres in each 40-acre tract; a quarter-quarter legal description is necessary.)
- 3) If you are operating another wateruser's farm, please indicate the quantity and location of the lands you are irrigating with St. John Irrigation water in their behalf.

If you have any further questions, please feel free to contact me.

Very truly yours,

ANTHONY R. KOZLOWSKI
Water Resource Agent

C. Stephen Allred
Director

March 13, 1978

1515 Lincoln Road
Idaho Falls, Idaho 83401
(208) 523-7186

Dear Wateruser:

Our records show that a proof examination still needs to be completed for St. John Irrigation Company's water permit No. 15-2080. Upon completion of this examination a license will be issued to the company for the amount of storage water, retained in Daniels Reservoir, that is actually being put to a beneficial use.

It is essential that the proper place of use of this water be described on the license. As you are a stock holder in the company, we are requesting that you supply to the Department of Water Resources the following information:

- 1) The total number of acres that you own and irrigate with St. John Irrigation Company water.
- 2) A legal description of the land irrigated (number of irrigated acres in each 40-acre tract.)

This information, once obtained will insure that a water right will be established on your land.

Personnel from our Eastern Regional Office will be visiting the Malad ASCS Office on March 22 and March 23, 1978, in order to compile this information and to answer any other questions you may have concerning water rights in your area. Please come in to the ASCS Office on March 22 or March 23 with your legal description. If you have trouble determining the correct legal description, we can help you locate your land on an aerial photograph.

Very truly yours,

Anthony R. Kozlowski

March 28, 1978

Dear Wateruser:

This letter represents a second attempt to determine the quantity and location of lands you own that are being irrigated with St. John Irrigation Company storage water. This information is necessary to insure that the land you are irrigating becomes licensed as part of the total system. As a stockholder in the company, we are again requesting that you supply to the Department of Water Resources the following information.

- 1) The total number of acres of land that you own and irrigate with St. John Irrigation Company water.
- 2) A legal description of the land irrigated (number of acres in each 40-acre tract; a quarter-quarter legal description is necessary.)
- 3) If you are operating another wateruser's farm, please indicate the quantity and location of the lands you are irrigating with St. John Irrigation water in their behalf.

If you have any further questions, please feel free to contact me.

Very truly yours,

ANTHONY R. KOZLOWSKI
Water Resource Agent

Nolan T. Blaisdell
St. John Irrigating Company
Malad, Idaho 83252

Dear Nolan:

Re: Permit No. 15-2080 - Daniels Reservoir for
St. John Irrigating Company

As you will recall, last year I visited the Malad City ASCS office for two days in order to prepare a list of irrigated lands necessary for the finalization of your water right permit. Unfortunately, I was unable to make contact with all of the shareholders on the list that you provided me.

I have prepared a rough draft license, a land list, and a list of omitted shareholders which I have enclosed for your review. Please provide me with the place of use of water for the shareholders I was unable to contact. I will hold the rough draft license in this office for thirty days, after which time I will forward it to Boise for licensing. If I have not received any response from you, I will assume that the water allocated to the omitted shareholders is no longer being put to beneficial use. If you have any further questions, please feel free to contact me.

Very truly yours,

ANTHONY R. KOZLOWSKI
Sr. Water Resource Agent

Enclosures

On Jan 12, 1977, I met with Nolan T. Blaisdell, Jr.
Telephonically. He is the owner of the land of the
Johns River Land Company. He was the owner
of the land in the area of the project. The project
was approved by the state in 1965. The
project was approved by the state in 1965 and
and B & B, some of the details of the
construction details are available. It is in
the process of completing the construction of the
and will be built to a standard which
whereby it will be a 20 percent

President - Nolan T. Blaisdell 766-2558

Secretary - David Deschamps 766-2042

check

15-2076 license transferred info
owner

A list of all shareholders in the company was
obtained. A letter (enclosed in report) was sent requesting
that they visit the Maled A&S Office during our
annual area visit and bring with them 1) the
total no. of acres that they own & irrigate with
St. John water and 2) a legal description of
the land irrigated (no. of acres / 40 acre tract.
As each shareholder plotted his land on the aerial
photo, his/her name was crossed off the list.
Unfortunately, I did not receive a 100%
response from the shareholders. Some of the
letters I sent were returned & no contact
was made. I assume there are some
additional lands that need to be included

8,075

Recommended Amendments:

P.D. _____
Place of Use _____
Other _____
None

MEASUREMENT CALCULATION:
8700 AF - 625 AF (T# 282) = 8,075 AF of storage

*Need to
know on
year*

allow 4500 AF for irrigation from storage as per reservoir
could fill 1.2 times in any given year, therefore
the amt. filled would be available for irrigation
also some water could be stored during the irrigation season

SYSTEM DESCRIPTION:
Natural flows of the Little Mahan River are stored by and earthfill
dam, 80' high, crest length 830'. This dam creates a reservoir
(Dennis) covering 375 acres of surrounding land and containing 8700
acre ft. of storage capacity. The spillway is a concrete-lined channel
through abutment spillway height 14', max discharge - 7000 cfs. The
Dam was completed in 1967. This is an on-stream reservoir

REMARKS:
The storage capacity of the reservoir was taken from
the Dept's publication entitled "An Inventory of Dams on
Lehigh 1977" and was found to be 8700 AF. However
under transfer # 282, 625 AF of water manually diverted to the
unknown dam was transferred into Dennis Reservoir. This amt. already
appropriated must be subtracted from the reservoir storage capacity

Examiner's Signature Anthony R. Kozlowski Date 3/24/1978

Checked by John D. Chilton Date 3/15/79

Approved by _____ Date _____

This water is not stored or diverted for culinary
purposes. (See reverse side)

To file:

The land list for permit no. 15-2080 was completed after a thirty day ^{deadline} was issued to H. John's irrigating company to provide the department with the piece of use, for the shareholders we were unable to contact. This list was submitted and to the best of our knowledge is ready for license.

Re: Permit No. 15-2080

St. John Irrigating Company
RFD #1
Malad, ID 83252

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 15-2080 on 3/22&23/78, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 8,075 acre feet Source: Little Malad River

The maximum quantity ^{stored} ~~diverted~~ shall not exceed 8,075 acre feet per year.

Point of diversion: SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 26, Twp. 12S, Rge. 34E, B.M.

Beneficial use: SEE ATTACHED LAND LIST.

Priority date established: January 9, 1962

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JAN GROVER
Water Rights Supervisor

JG/kw

*Sent C. J. Scott copy of
other right issued for this
reservoir (15-2078) & will give
him 10-days & then issue license.
