**RE: WATER SUPPLY BANK LEASE APPLICATION(S) FOR WATER RIGHT
NO(S). 35-14453 & 35-14454 AND RENTAL APPLICATION 1748**

Dear Applicant:

On July 2, 2020 the Idaho Department of Water Resources (Department) received your application(s) to lease water right no(s). 35-14453 & 35-14454 to the Water Supply Bank (Bank) and a companion rental application 1748.

The Department of Water Resources (Department) mailed **two original Water Supply Bank Lease Contracts and a single Water Supply Bank Agreement for your review and signature** on September 16, 2020. As of the date of this letter, the signed contracts and agreement have not been returned to the Department.

Without the signed Lease Contract(s) the Bank cannot execute the contract(s), and complete the lease process to accept the rights into the Bank. Additionally, the Bank cannot complete the rental process authorizing the diversions outlined in the Rental Agreement. Please discard both the drafted Lease Contract(s) and Rental Agreement as they are no longer valid. This letter is notice that **the attached application(s) to lease and rent water to the Bank are being returned.**

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form.

You can reapply to lease the water right(s) in the future by submitting new application form(s) along with applicable fees. Water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have questions regarding this matter, please contact me at 287-4936.

Sincerely,

Justin Ferguson

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2024**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. Memorandum

To: Water Rights 35-14453 & 34-14454
From: Justin Ferguson
Date: July 8, 2020
Re: Water Supply Bank Lease Application 1747

Purpose/Narrative: An application was received on behalf of Mr. William Toevs, offering the full portion of water rights 35-14453 & 34-14454 on July 2, 2020. The application was received as part of a lease/rental package from Mr. Toevs, proposing to idle acreage covered by these water rights to break out new ground as an alfalfa field. The water rights have been leased to the Bank previously, beginning in 2017 after they were created through a split of parent water rights 35-13609 and 35-7246M in 2016, through the end of the year in 2019. While they had been used to facilitate rentals within the basin, this will be the first time Mr. Toevs has requested the use of the water rights for himself.

Authority to File: The application was signed by Mr. Toevs and submitted by his representative at Brockway Engineering. Review of IDWR records indicate Mr. Toevs as the current water right holder. No concerns at this time.

Water Right Validity/Forfeiture Evaluation: Historically, these rights were developed through a split of parent water rights 35-13609 and 35-7246M in 2016. Prior to the split, the parent rights had been enrolled in a crop set-aside program protecting them from forfeiture through the end 2008. After Mr. Toevs took ownership in 2012, they were leased again to the Bank in 2013 through 2015. After the split, 35-14453 & 34-14454 have remained in the Bank through the end of 2019. No concerns at this time.

Injury Evaluation: No injury is apparent through the lease of these water rights. Proper rental review should protect against injury.

Enlargement of Use: No enlargement is evident through this lease as the acreage will not receive water from any other source. During the previous reviews it was found that no irrigation had taken place and that remains consistent at the time of this review. No concerns at this time.

Local Public Interest: Staff are unaware of any local public interests that are averse to the lease.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments: Watermaster and IDWR Eastern Region comments were requested on September 16, 2020. Comments from both parties were received the same day, there are no concerns.

Water Supply Bank Evaluation: Based on the information presented by the applicant, staff recommend the application be approved through 2024.

Re: William and Joanne Toevs 35-14453 and 35-14454

Dear Mr. Buyer:

William and Joanne Toevs own water rights 35-14453 and 35-14454. They would like to lease these two water rights into the Idaho Water Supply Bank from 2020 through 2024. These two water rights have been leased into the Water Supply Bank for many years prior to 2020.

William and Joanne Toevs desires to rent the entire 82.0 acres of irrigation water under 35-14453 and 35-14454 to property in which they own. The plan is to plant alfalfa seed on the 82.0 acres after the rental is approved in 2020. No alfalfa crop is expected to be harvested during 2020. The intent is prepare the soil and establish a good alfalfa stand. This will allow this 82.0 acre rental to be approved in July, August or September of 2020.

ESPA Transfer Analysis Model Tool analysis indicates that no mitigation is required for this rental.

It is expected that only the 10% rental processing fee will be paid to the Idaho Water Supply Bank for the duration of the lease and rental contract period.

Please copy our office on all correspondence regarding these applications.

Sincerely,

Greg Sullivan, M.S., Engineer
