RE: Application for Permit No. 65-24017

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the INDEPENDENT ENTERPRISE on 3/17/2021 and 3/24/2021. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Lauerman

RE: Communication with Applicant

I talked with Gene Wright to clarify if he had any water shares from the local irrigation company to determine if the use would be supplemental. He said he has shares and is trying to avoid future erosion in that area since he is in a landslide management area. 11 acres of his property will continue to be flood irrigated and will use the shares. He is trying to avoid flood irrigating close to his new home and in the pasture area which is the place of use for his application for permit. His current plan is to use sprinklers to irrigate the pasture. Mr. Wright understands that his use may be supplemental and would still like to continue the application process.

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on February 10, 2021. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **The Map #14**
 - You must include an 8½" x 11" map that clearly identifies the proposed point of diversion (POD), place of use (POU), section #, township, and range.
 - For your convenience a map was generated using the information provided with the incomplete maps submitted. Please return this map if you agree with the information on it. If you do not agree with the generated map, a blank map has been included for you to edit. Only return one map.
- **The Signature**
 - #1 of the application lists Gene AND Erica Wright therefore both signatures are needed to file the application. Alternatively #1 can be changed to "and/or" on the *Name of Applicants* line and change the checked box to "and/or" so only one signature is needed.

On the application please initial and date all changes made.

The original incomplete application is enclosed. Please make the necessary amendments (initial/date all changes) to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available online at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information.

Sincerely,

Western Region Water Rights Staff
