RE: Water Right No(s): 45-4193, 45-2182, and 45-10472 Change in Ownership

Dear Water Right Holders:

The Idaho Department of Water Resources (Department) received a Notice of Change in Water Right Ownership (Notice) from you on August 11, 2020 for the above referenced water rights. The Notice could not be processed because the documentation submitted with the Notice was insufficient to convey ownership of the rights. We spoke on the phone and I related what the issues were, and the possible solutions.

On October 27, 2020 our office mailed a letter noting the completion of the processing of changes of ownership for rights 45-10457, 45-12751, 45-13498, 45-10458, 45-10461, and 45-10462. In the letter, the deficiencies which are preventing the processing of the ownership changes for rights 45-4193, 45-2182, and 45-10472 were outlined and remedies for the issues were suggested. That letter gave a 30 day deadline for action, which was the end of November of 2020. At this point, nothing has been received which would enable our office to process the remaining rights, so we are returning the Notice and I will initiate a refund of your \$75.00 in fees which were paid when the Notice was filed. You may resubmit a Notice at any time with the proper documentation and fees.

If you have any questions regarding this matter, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg

Re: Change in Ownership for Water Right No(s): 45-10457, 45-12751, 45-13498, 45-10458, 45-10461, and 45-10462. **Unable to process Change in Ownership for rights 45-4193, 45-2182, and 45-10472.**

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

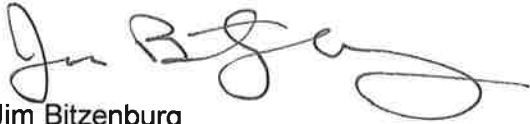

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

As noted above, we could not process the change in ownership for rights 45-4193, 45-2182, and 45-10472 at this time because the conveyance documents provided did not convey the property appurtenant to all, or part of, the water rights. Right 45-4193 is appurtenant to land in the SE¼ and the SW¼ of Section 27, T14S, R22E. None of the documentation supplied conveyed land in those quarter sections. Similarly, a portion of right 45-2182 is appurtenant to land in the SE¼ and the SW¼ of Section 27, T14S, R22E, and without documentation conveying the two quarter sections, the ownership of that right cannot be changed, unless you wish to split the right, which would require an extra fee of \$75.00. Right 45-10472 is appurtenant to property in T14S, R22E, Section 34 and none of the documentation provided conveyed property in Section 34. In order to process the change of ownership for the three rights we will need the proper conveyance documents and/or fees. If we do not receive the necessary documentation within 30 days, we will initiate a refund of the fees paid for the three rights and the change in ownership for the three rights will not be processed.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

Sincerely,
