Subject: Application for Transfer 84270 (Sorensen)
Attachments: Archer Letter.pdf

Ms. Archer,

I just received the attached letter from you in the mail. Correspondence to the hearing officer should be sent to all parties. I don't know if you sent a copy of the letter to the other parties, so I am attaching a copy to this email to ensure that the other parties receive a copy. It is not clear what you intend to do with the letter. If the contested case goes to hearing, you will have an opportunity to offer evidence (including personal testimony) into the administrative record. The other parties will be given an opportunity to object to your evidence and to cross-examine you and your witnesses at hearing. It is not proper for you to present evidence (in the form of a letter) prior to the hearing because there is not an opportunity for objection or cross examination at this time. If you want to offer your letter into the administrative record for this case, you will need to do so at the hearing.

To Cindy L. Archer:
Along with Dale E. Smith - 208-541-6230
In response to protest of
Sorensen 84270 water transfers
I Acquired the Family Ranch After
my mother passed. Which was my
Grandparents place After selling
"which now is the Pu Ranch and
owning Timberdome land - Homesteading
there and the old Hoger point - I
have been Around the Sorensen's
my whole life and this new well
is a joke and should not be allowed
#1 this is a direct injury to my farm
land and House well #2 the old
Hoger point is the drill pipe and
this new well is Above the A Line
#3 it is expanding the Water Right
deeded from Jerry Browne and
using from another is definitely
illegal - they should of transferred
Jerry's Browne water Right to the
one they are already using to
irrigate the land it was deeded to.

(2)

How can you drill another well for another right that's already being used?

Again this is only a expansion of the water right already being used. would like to note that everything Marea + Karen Huggins is saying I totally agree with because it does effect every house well - not suppose to drill.

Again Boils down to only a expansion of the water rights already being used and is a direct injury to my house and farm ground. ~~Obscured~~ ignorant, greedy + forbidden to drill and pump out to the flats - I again state this is not right and should not be allowed - to happen - a direct injury to my farm + house
