Charlie,

Good morning!

To the best of my knowledge, neither IDWR's State Office nor Eastern Region office received any protests to the licensing amendment application recently published for Mr. Katsilometes' water right permit no. 29-13672. The protest deadline was Monday, February 22, 2021. While there is still the outside chance there might be a protest in interoffice mail, I feel fairly confident at this point I can move forward with finalizing this decision and present you with a draft decision.

Per your request, attached is a draft license for permit no. 29-13672. Please review this draft license document and provide any comments to me at your earliest convenience. Recognizing Mr. Katsilometes and IDWR's interest in the timely issuance of a decision in this matter, I plan to issue a decision either after I receive your response to this email OR on March 5, 2021, whichever comes first.

This opportunity to review and comment on the draft license document in no way limits the opportunity to file a petition for reconsideration after issuance of the decision. Providing this draft license is simply an opportunity to address any questions that occur to you or Mr. Katsilometes before the decision is issued.

Please feel free to respond to this email or call me if you'd like to discuss this matter.

Regards,
Angie
