Subject: Re: Updated Map Shape

Yes James, if you would update your maps to reflect my current place of use of my water rights. Thanks, Seth

Seth,

When we spoke last week, you notified me of an issue with the place of use for water rights 34-62B, 34-738C and 34-2397C. These three rights, in combination, authorize the irrigation of 75 acres (36 acres in the NESW of Section 4 and 39 acres in the SESW of Section 4). As we reviewed the water rights, we discovered that the map shape for the three rights could be rearranged to cover the irrigated acres without changing the number of acres per quarter-quarter. This change can be accomplished without a formal transfer application. Attached is a map showing a proposed place of use for water rights 34-62B, 34-738C and 34-2397C. If this map accurately depicts the irrigation place of use for the rights, please respond to this email confirming that you would like me to update the map shapes for the water rights.
