Narrative: The Department received this application on December 24, 2020. Filing fee was received on February 1, 2021. The applicant wants to place the entire right in the Bank, however on previous leases, the recreation use was not allowed since the pond for this use continues to hold water. This is still the case. The springs are beneath the pond and there is no way to prevent the pond from filling. This right was decreed in 2009 and the entire right was placed in the Bank in 2011 but the recreation was not included in future leases. Mr. Collins appears to be irrigating 1/2 acre from water he receives from Wooden Hill Water Work, 37-7136 even though on his application he states the property will not received water from another source. This was the case in 2016. The entire 3 acres will be leased but only 2.5 acres will be rentable. The unleased portion of this right will be limited to 0.14 cfs. This right is currently within WD 37.

TIME SENSITIVE RESPONSE REQUIRED

Dear Applicant:

Effective April 8, 2011, Water Supply Bank Rule 25.02 (also known as IDAPA 37.02.03.025.02.f) requires a \$250.00 fee be submitted with all Water Supply Bank (Bank) lease applications. The fee for a set of overlapping rights is a maximum of \$500.00. To clarify, Bank lease applications seek to place water rights into the Bank.

The Department of Water Resources (Department) received your application(s) to lease water right(s) 37-7792 to the Bank on December 24, 2020 without the required fees. **Please submit the \$250.00 lease application fee within 14 days.** Without the lease fee your application(s) is considered incomplete and will not be processed.

Once the application fee is received, your application(s) will be reviewed. If the right(s) is determined to be eligible for acceptance into the Bank, the right will be entered as of the date of receipt of the application. The acceptance date may be adjusted if additional information is required.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right. This and other water right forms are available from the Department's web site, <http://www.idwr.idaho.gov>.
