

James Cefalo
Department of Water Resources
900 North Skyline Drive, Suite A
Idaho Falls, ID 83402

Dear James,

It has recently been brought to my attention that Widmer Ranch LLC decreed water right 11-147 property has been left out of the proposed Taylor Canal boundaries. According to transfer No. 81752 this right is regulated by the watermaster with responsibility for the distribution of water among appropriators within District No. 11F and that is why I am writing you this letter.

For your information Widmer's rented a pump, mainline, and handlines and watered their property in Sec. 26 and 27 in the summer of 2017. It is their intention in the future to install a pivot in section 26 and build bridges across the Thomas Fork Creek to water their property in Sec. 27 from the Taylor Canal when they transfer 11-147 back to it's decreed place of use.

It has also been brought to my attention that Transfer 77071 approved by the Department on May 19, 2011 was rescinded. This means to me that because Dave Garside (previous owner) did not follow through with his transfer that all the rights returned to their original elements. The transfer reads: The elements and conditions of water rights 11-157, 11-7679, and 11-7681 shall revert to those existing on the water rights prior to Transfer 77071. This was dated January 3, 2018 and signed by you.

I am sure you are aware that Widmer's are the sole owners of decreed water right, 11-147. Water right 11-147 lists Widmer's property in Sec. 26 and Sec. 27 in the Court Case Records in 1902 and their source of water is the Taylor Canal. In order to prevent any disputes in the future over this property and where the Taylor Canal is to deliver Widmer's their water, please include their property in both Sections 26 and 27 as described in decreed water right 11-147 in the proposed boundaries of the Taylor Canal that I am to regulate.

Thanks for your help in this matter.

Joel Teuscher
Watermaster
State Water District No. 11F
