Re: Water Right Claims / Request for Registration of Claims

Dear Sir / Madam,

Attached herein are three (3) Claims to a Water Right and corresponding maps showing the point of diversion, spring location and the place of use described on each respective claim. Also enclosed is our application w/map for a permit to utilize the water from one of the springs for domestic use and landscape watering for a permeant ranch house located on the same property.

Enclosed is our check in the amount of \$400.00 (\$100.00ea. 3claims and 1 permit) for the combined filings. I am requesting that these claims be properly registered to the Idaho property described in the claims.

Also enclosed is a document entitled Cleveland Canal Company – Historical Notes. I am requesting that this document be included with the afore mentioned claims and filed appropriately as it memorializes a transaction between the Cleveland Canal Company and the then owners of the property. This agreement documents the transfer of a water right owned by the Stewart Ranch (now known as The Juniper Ranch) to the Cleveland Canal Company in exchange for a guaranteed use of the same amount of water unrestricted from the open canal to a sprinklered irrigation system then being installed on the Stewart Ranch property. This agreement was approved by the members of the canal company and the owners of the ranch property but was only informally documented to the best of our knowledge and research. This agreement remains in force today and has been utilized continuously since its inception in the 1950's.

Thank you for your assistance with this request. If there are any questions, I can be reached by Cell phone at 510-459-0649 or office phone at 925-362-0114.

Sincerely,

H. Kent Hansen
