7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.

It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

RE: APPLICATION TO LEASE WATER RIGHT 37-21842, 37-21849, 37-21866, 37-21883, 37-21900 & 37-21917 TO THE WATER SUPPLY BANK CONTRACT XXXX

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2025**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

13	Narrative: The applicant proposed to put the entirety of all rights in the Bank. These rights together are limited to the irrigation of 5 acres. 5 of these rights are surface water and one is ground water. The Department will place 5 acres in the Bank but only 4.5 acres will be rentable since the applicant is going to continue to irrigate the 1/2 acre around the home. There is not a domestic water right on this property and the irrigation right was established before the well for domestic use was drilled. These rights were decreed in 2010 and placed in the Bank in 2016 so forfeiture is not an issue. There are no other overlapping rights. Consent was given from Wood River Irrigation District No. 45 and Triangle Irrigation District with a 20 % holdback for conveyance loss. These rights are currently within WD 37.
