MEMORANDUM

Date: February 8, 2021
To: Transfer 84670
From: Michelle Richman
Re: Transfer Synopsis

Transfer application 84670 proposes to modify three ground water rights (municipal and stockwater) that have a combined limit of .76 cfs by adding one new point of diversion (POD) and removing one of two existing PODs. The proposed new replacement well (POD) will be drilled approximately 1400 feet southwest of the center of Picabo, also described as 450 feet south and 1830 feet west of the existing POD to be removed. It would be approximately 2900 feet outside of the ESPA boundary (eliminating the need to run an ESPA model analysis). The updated municipal service area includes 520 acres in and around Picabo consisting of the SENW, the SWNE, and the south half of Section 27, and the SWSE and the south half of the SW $\frac{1}{4}$ of Section 26, Township 01S, Range 20E. The POD & POU are located in the Big Wood River Groundwater Management Area. The proposed transfer is in Water District 37, and Water Master comment will be solicited.

MEMORANDUM

Date: February 2, 2021
To: Transfer 84670
From: Michelle Richman
Re: Filing Fee

This transfer was filed on January 6, 2021 to add one point of diversion (POD) and eliminate one POD. Conditions limit the combined flow rate for the three water rights to .76 cfs, and they limit the combined volume to 26.6 acre feet. The corresponding fee of \$500.00 on the transfer fee schedule was paid at the time of filing by Brockway Engineering, PLLC, IDWR receipt #S038327. Specifically, \$500.00 of the \$750.00 receipted (#S038327) was for this transfer application.

Michelle-

Thanks again for the conversations today. Attached is the updated map showing the additional two 40-acre tracts that we need added to the POU (SENW, SWNE of T.01S. R.20E Sect. 27).

To answer your question posed below on 1/28/21, the correct township is 1S per the attached map. Please don't hesitate to call or email with additional questions, thanks again-

Michelle-

Thank you for the email, it's nice to meet you.

We actually need to submit a new transfer and permit application on behalf of Picabo Livestock Inc. I believe. Corey just kicked the permit back to us. I need to amend the place of use associated with the transfer; I'm assuming that will take a new filing unless you think you can do it with the existing application.

Please advise, thank you!

Subject: Question Regarding Picabo Livestock Co.

Hello Zach,

I'll be working on the transfer for Picabo Livestock. Upon initial review, I see in part 5 of the application that you've listed both the existing and new points of diversion in township 1N 20E Section 27. The map, on the other hand, show them in township 1S 20E Section 27. Can you please confirm by response to this email the correct township-range-section?

Thanks,
Michelle

Corey,
Correct, the transfer application's combined rate limit on item number 4 should be as currently exists on the existing water rights at 0.76 cfs.
Please let me know if you need any additional info and let us know how to proceed.
Thanks for your time.

Subject: Picabo Livestock Transfer Application

Zach,

You recently filed a transfer application on behalf of Picabo Livestock Co. Inc. that proposes to change the point of diversion for water rights 37-7455, 37-21400, and 37-11628. Item number 4 on the application indicates the total amount of water as 0.82 cfs (additive amount of the diversion rates of the three rights). However, water right 37-21400 includes a condition indicating that rights 37-7455, 37-21400, and 37-11628 are limited to a combined rate of 0.76 cfs. I assume that you would want item # 4 on the application to be corrected to 0.76 cfs instead of the 0.82 cfs, and the application processed and advertised accordingly.

Let me know your thoughts,

Corey

RE: Picabo Livestock Co Inc.; Water Right Permit and POD Transfer Applications.

Dear Corey,

Enclosed are a water right permit application and a water right point of diversion transfer application filed in the name of Picabo Livestock Co Inc. (Applicant). The permit application seeks additional flow rate for municipal use authorized under 37-7455 and 37-21400 from one existing well and one proposed well. The water right point of diversion transfer application seeks to change one point of diversion associated with 37-7455 and 37-21400 from an existing well on lands not owned by the applicant, to a proposed well located on lands owned by the applicant.

Please copy our office and Brockway Engineering on all correspondence regarding these water right permit and transfer applications. Also included is a check for \$750.00 (\$250 for the permit application and \$500 for the cost of the water right transfer application) to cover the cost of the applications. Don't hesitate to give me a call should you have any further questions or comments.

Regards,

Zach Latham, M.S., Hydrologist.
