

MEMORANDUM

TO: Shelley Keen
FROM: Nick Miller 
DATE: 12/29/2020
RE: Status of I84 Applications

You had asked me for a listing of the pending applications for permit and transfer in the I84 corridor. As you know, the Director's November 4th, 2013 *Final Order Regarding Water Sufficiency* established that the area was nearly fully appropriated, but that some of the applications in the consolidated matter could be approved and others would remain in queue while those and other pre-existing permits are developed. To the extent the permits are developed for less than the permitted amount, that water would become available to the next applications in the queue. Since that order was issued, Western Region has received an additional application for transfer and three applications for permit. These are being held and will be processed if/when existing permits become licensed and water becomes available or not.

Currently, here is the listing of the active applications for permit and transfer within the I84 area in chronological order of the dates they were received:

NAME	NUMBER	RECEIVED	PRIORITY	WATER USE	CFS
Nevid, LLC	61-12095	4/3/2007	4/3/2007	Municipal	5.00
Orchard Ranch, LLC	63-32703	6/21/2007	6/21/2007	Irrigation (was municipal)	9.60
Ark Properties, LLC/ Mayfield Townsite, LLC	63-33344	3/1/2010	3/1/2010	Irrigation in planned community (63-32499)	9.00
PARS HOLDING LC	61-12307	6/15/2016	6/15/2016	Municipal (part replace 61-12256)	5.0
PARS HOLDING LC	63-34245	6/16/2016	6/16/2016	Municipal (Backup in event 63-32225 not full licensed)	5.0
PARS HOLDING LC	61-12308	6/21/2016	6/21/2016	Municipal (part replace 61-12256)	8.76
JUNIPER STATIONS FARM LLC	X 81327	12/5/2016	1975/1976	Irrigation 151 moved from CCBCGWA into I84 area – new irrigation	3.02
JUNIPER STATIONS FARM LLC	61-12319	8/3/2017	8/3/2017	Irrigation new 640 acres (with X81327 give 791-acre project)	12.80

Note: The Orchard Ranch transfer 78355 was withdrawn shortly following issuance of the *Final Order Regarding Water Sufficiency*.

Additionally, IDWR is processing a transfer (83875) and a permit amendment for Intermountain Water & Sewer Corp related to the Mayfield Springs development (63-32225). Cynthia Bridge Clark held a hearing in late August 2020, but I do not think a decision has been issued. Note that the three Pars Holdings applications all relate to this same development. Let me know if you need anything else.
