3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

13	Narrative: The Department received this application on December 21, 2020. The applicants wish to place the entire right in the Bank. This right was decreed in 2009 and has been in the Bank since 2002. The owners of the water right sold the land but not the water right to the school district in 2001. The school district continues to get their water from the City of Nampa. This right hasn't been used on this property since 2002. There are no concerns of enlargement or forfeiture since the right has been in the Bank. This is a ground water right and is not currently within a WD. If rented, this water must be combined with water from the Nampa-Meridian Irrigation District.
