WATER SUPPLY BANK LEASE CONTRACT No. 1302

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.
13. Right no. 63-33249, 63-33255 and 63-33256 are also diverted through the point of diversion located in the SWNE of Section 5.

The current subdivision will continue to get water from Suez Water and effluent water per DEQ permit M-174-05. There are no concerns of enlargement as the Suez rights and the Hidden Springs rights have not been used together. These rights are currently within WD 63.
