Good afternoon, Nick (and Travis).

Nick, please see below email exchange between myself and applicant Travis Teichert. I thought I sent you an email withdrawing Black Canyon Irrigation District's pending protest but it appears what I "thought" I did, I did not do.

Please treat this email as an unconditional withdrawal of BCID's protest in the above-referenced matter.

If you have any questions, please let me know.

Regards,
Andy

Good morning, Travis.

Sorry I was unable to return your call yesterday. But, after having had the change to run the potential surface water delivery opportunity to ground, I think you are better off with drilling your well as planned for a couple of reasons:

- (a) BCID does not have enough surface water available to cover your proposed place of use; and
- (b) Even if it did, the delivery point would force you into a lateral user system that you want to avoid for rotation and neighbor hassle reasons.

Because surface water delivery does not meet your needs, and I presume not something you want to pursue further, BCID will withdraw its pending protest to your groundwater right application.

If you have any questions, please let me know.

Regards,
Andy
