Re: *Ron and Lorraine Wilcox Water Leases: Water Rights 37-20926 and 37-20924*

Dear Sir or Madam:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). For the reasons outlined below and on the conditions requested, the Canal has no objection to the aforementioned water rights being placed into the Water Bank.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Hiawatha Canal being placed in the Water Bank provided that if the water rights are leased to parties outside of the Canal, then the Water Bank should require twenty-percent (20%) of the right be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty-percent (20%), and therefore, entered recommendations accordingly. See e.g., water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty-percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

As a condition of being leased, the Canal Company requests:

1. The Canal Company does not presently object to the aforementioned water rights being placed in the Water Bank, provided that twenty-percent (20%) of the right is left in the Canal as conveyance loss; and
2. The Canal Company would like to be notified if the water rights are eventually released from the Water Bank, or if the Water Rights are being leased again to the Water Bank after the expiration of the lease period.

Thank you in advance for responding to this letter and addressing our concerns. If you have any questions, please do not hesitate to call me.

Sincerely,

HIAWATHA CANAL COMPANY

13	Narrative: The applicant wishes to place 13.3 acres of both rights in the Bank. They will continue to irrigate 6 acres. 2.2 acres will not be irrigated and 11.1 acres are being put in the Bank to protect from forfeiture. These rights are for 19.9 acres EACH for the same parcel that is only 8 acres in size. There are no combined conditions. Map provided by applicant includes land NOT owned by applicant. They cannot include this land in the lease. These rights were decreed for 30.6 acres. The Wilcox's quitclaimed 11/30.6 of each right to Remington Monroe Equine, this action severed 11.1 acres of the right from the appurtenant property. The current water right holder signed the application. These rights were decreed in 2010 and in the Bank in 2015. Forfeiture is not an issue. These rights are delivered thru the Hiawatha Canal. 20% will be left in the canal for conveyance loss. These rights are currently within WD 37.
