8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 74W.

13 Narrative: The Department received this application on December 23, 2020. The applicant wishes to place the entire right in the Bank. This right was placed in the Bank in 2004 for an indefinite period of time. The right was decreed in 2007. In 2015 the IWRB, passed a resolution that no right can be in the Bank for an indefinite period of time. The lease expired in 2020. Aerial imagery shows no irrigation has taken place. There are two stockwater rights that overlap the POU of this right but they do not need to be placed in the Bank. This right is currently within WD 74W & 170. Comments will be requested from both watermasters.
