

MEMORANDUM

Date: January 15, 2021
To: Transfer 84562
From: Cooper Fritz
Re: Review & Evaluation of Sufficiency of Information

This transfer rearranges the place of use for the 467 acre portion of rights 31-12473, 31-12475, 31-12477, and 31-12479 remaining after approval of companion transfer 84554.

Authority to File:

The applicant, L2 LTD Partnership, has the authority to file.

At the time of transfer submittal the rights were owned by the applicant, according to the Department's database. The land at the pre-transfer and post-transfer place of use was owned by the applicant according to Jefferson County taxlot data. The application was signed by Lewis Newman, the registered agent for L2 LTD Partnership, according to the Idaho Secretary of State's Office.

Water Right Validity:

The water rights are valid for transfer. The water rights are children of various rights decreed to Producers Irrigation Company in 2002. Review of post-decree aerial photography demonstrates consistent irrigation. They were also involved in various transfers between the decree and this approval.

Injury to Other Water Rights:

No other water rights will be injured as a result of this transfer. The Watermaster for Water District 110 was notified of the transfer and did not oppose its approval. An ESPAM2.1 simulation was not required because the point of diversion is not changing.

Enlargement of Use:

No enlargement of use will result from this transfer's approval.
Rate, volume, nor irrigated acres are authorized to increase.

Local Public Interest / Conservation of Water:
No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
