Subject: Application for Transfer 82746 (Idaho Water Company
Attachments: WSB Rental No. 463 (Great Western Malting Co.).pdf; Withdrawal of App for Transfer.pdf

Kevin,

In September of this year, I sent you an email asking for a status update on Application for Transfer 82746. The application proposed to transfer a portion of ground water right 29-7006 to Great Western Malting Company. You responded to the email and noted that Great Western was exploring the possibility of renting a local ground water right through the Water Supply Bank. I just checked with the Water Supply Bank. Great Western was able to rent water rights through the WSB to satisfy its additional water requirements. The attached WSB Rental was approved in November 2020 and extends until December 31, 2024. With the WSB Rental in place for Great Western, it appears that Application for Transfer 82746 is no longer needed. The attached form can be used to withdraw the application. If I am mistaken, and you still want to move forward with the transfer application, let me know and I will schedule a status conference for the contested case.
