

MEMORANDUM

DATE: January 19, 2021
FROM: Debbi Judd
TO: Water Permit 75-14899
RE: Statement of Completion

=====

A Statement of Completion (proof) was submitted by Wayne and Dyann Worley for permit 75-14899. A deed was also submitted with the proof as the Worleys were unable to obtain an Assignment of Permit from the current owners. On November 13, 2020, pursuant to Water Appropriation Permit Processing Memo #10, I attempted to contact Susan Jensen by telephone. There was no answer and the voice mail message advised that there was no voice mailbox set up for that number. The only contact information for the current permit holders was a telephone number and an address of property that is now owned by the Worleys. On January 6, 2021, I sent a letter to the Jensens advising that proof was submitted by the Worleys and asking if they had an objection. I received a voice mail on January 11, 2021 from Susan Jensen stating that they had sold the property to the Worleys and had no interest in the permit.
