RE: Water Right Permit No. 29-13672

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Idaho Code § 42-211. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the place of use and point(s) of diversion were developed differently than described on your permit.

The enclosed Application for Amendment form depicts the place of use and point(s) of diversion of the water right, as they will appear on the license if issued. Please review the amendment form carefully. If you concur with the information presented, please sign and return the form with the filing fee of \$100.00 within fourteen (14) days.

If you have any questions, please call me at (208) 287-4951.

Sincerely,

Angela M. Grimm, P.G.
Water Rights Section Manager
