A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: December 17, 2020
To: Transfer #84277 – Leslie and Thelma Cameron Transfer File
From: Jim Bitzenburg
Re: Evaluation of Sufficiency of Information Submitted

Application for transfer proposes to split an existing irrigation/domestic ground water right, with a flow rate of 0.24 cfs, into two rights; one will irrigate 9.0 acres out of one well, and the other will have domestic use and 1.0 acre of irrigation on two parcels and will be diverted out of a different well. The place of use and points of diversion are located approximately 2.5 miles south and 0.8 mile west of the intersection of State Highway 75 and the Gannett-Picabo Road in Bellevue.

The right is within Water District 37 so Watermaster comments were solicited. The Watermaster did not comment on the transfer.

Because the two wells are already in existence and likely in use, hydrologic impacts should be minimal, so advertising is not required.

The parent right in the transfer is 37-7373 (irrigation, 0.20 cfs, 10.0 acres, 30.0 AF; domestic, 0.04 cfs, 1.2 AF), with a total diversion rate of 0.24 cfs and a total volume of 31.2 AF.

- **Authority to File:**
The Department's database indicates that water right 37-7373 is owned by Leslie and Thelma Cameron. The application was signed by the Camerons.
- **Water Right Validity:**
The water right was decreed in the SRBA in 2010, and a home is located on the property. Aerial imagery is inconclusive as to recent irrigation on the ground.
- **Injury to Other Water Rights:**
None anticipated or foreseen. Transfer proposes no increase in volume of water used or acres irrigated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated. Hydrologic impacts should be minimal, so advertising is not required.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated
- **Effect of the Agricultural Base of the Area:**
None Anticipated

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Not Required

Legal Notice Not Required
11/17/2020

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

Because the two wells are already in existence and likely in use, hydrologic impacts should be minimal, so advertising is not required.
