Subject: Application for Permit 47-17719 (4799A River Road LLC) Status Conference

Parties,

As you are aware, the protestant and their legal counsel did not participate in last Tuesday's status conference regarding Protested Application for Permit 47-17719 (filed by 4799A River Road LLC) due to unforeseen circumstances. Legal counsel for the applicant indicated during the conference that they desire to proceed with scheduling a hearing in the matter.

I am inquiring relating to available dates and times the rest of this week and next week to schedule a follow up status conference via telephone. The purpose of this status conference will be to set a hearing date (during the month of June at the earliest) and associated deadlines leading to the hearing.

The parties &/or their legal counsel shall have their calendars available to assist in setting the hearing date and associated deadlines for the next few months during the status conference.

Please respond to this e-mail with your dates and times the rest of this week and next week to schedule a follow up telephone status conference.

Thank you,

Corey Skinner
IDWR Southern Region Manager
