Re: Change in Ownership for Water Right No(s): 43-13484, 43-13486, 43-13488, 43-13768, 43-13769, 43-13770, 43-13771, & 43-13772

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

During our review of water right overlap, it was discovered that ground water irrigation rights 43-2356B, 43-2441C, 43-4022B, 43-4023B, 43-4024D, and 43-4130B, in the name of J7, LLC, are appurtenant to 9.3 acres of the Higley property in the SESW and SWSE of Section 32, T13S, R27E. This property was conveyed by the deeds submitted with the Notice. The main portion of the place of use of these rights is on land to the east of the conveyed property which appears to be owned by J7, LLC. Therefore, a split of the six rights will be necessary, which will require an additional \$600.00 in fees. You may submit a new Notice listing the six rights with the additional fees, or you could request by letter that the six rights be added to the Notice, and pay the extra \$600.00 in fees then. It should be noted that the 9.3 acres are 'additional acres' and not stacked on the rights already in the Notice, so they provide 9.3 acres of irrigation above and beyond the base rights in the Notice.

Additionally, it appears that ground water right 43-10097 (stockwater/domestic, 0.08 cfs) is appurtenant to conveyed property in NESW of Section 32, T13S, R27E. In checking older aerial imagery, it looks like a feedlot and home may have existed in that Quarter-Quarter years ago. That right may not be useful to you, and so you may choose not to convey it. If you do, the additional processing fee is \$25.00.

Please note, Ireland Bank is identified as a security interest holder on these water rights. If this is no longer correct, it can be removed from the rights upon written notice from the security interest holder that the interest has terminated.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Note that water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

Sincerely,

and 43-13488 Change in Ownership

Dear Interested Parties:

The Department of Water Resources (Department) acknowledges receipt of your Notice of Change in Water Right Ownership (Notice). Our review of your Notice indicates that the addition of six, and possibly seven, more rights to the Notice may be necessary. During our review of water right overlap, it was discovered that ground water irrigation rights 43-2356B, 43-2441C, 43-4022B, 43-4023B, 43-4024D, and 43-4130B, in the name of J7, LLC, are appurtenant to 9.3 acres of the Higley property in the SESW and SWSE of Section 32, T13S, R27E (see enclosed map and water right reports). This property was conveyed by the deeds submitted with the Notice. The main portion of the place of use of these rights is on land to the east of the conveyed property which appears to be owned by J7, LLC. Therefore, a split of the six rights will be necessary, which will require an additional \$600.00 in fees. You may submit a new Notice listing the six rights with the additional fees, or you could request by letter that the six rights be added to the Notice, and pay the extra \$600.00 in fees then. It should be noted that the 9.3 acres are 'additional acres' and not stacked on the rights already in the Notice, so they provide 9.3 acres of irrigation above and beyond the base rights in the Notice.

Additionally, it appears that ground water right 43-10097 (stockwater/domestic, 0.08 cfs- see enclosed water right report) is appurtenant to conveyed property in NESW of Section 32, T13S, R27E. In checking older aerial imagery, it looks like a feedlot and home may have existed in that Quarter-Quarter years ago. That right may not be useful to you, and so you may choose not to convey it. If you do, the additional processing fee is \$25.00.

Because the Department cannot process the Notice without including the additional six rights we will hold any action on your Notice pending receipt of the corrected Notice/letter and additional \$600.00 (or \$625.00 if right 43-10097 is included) in fees. If we do not receive the corrected Notice and fees within 30 days we will return your notice and all attachments and your notice will not be processed.

If you have any questions regarding this matter, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg
