SHEET 1 OF 3
Job No. 3987

CATTLE-LACK RANCH

(ORIGINALLY PROPOSED AS ANTELOPE FLATS)

NOTES

DECEMBER 1999

1. All utilities shall be underground.
2. All habitable structures shall be required to install automatic fire sprinkler system as approved by the Wood River Rural Fire Protection District. The fire district reserves the right to increase or decrease fire protection requirements for all other structures if the fire officials determine that greater or lesser hazards exist.
3. All new domestic wells in this subdivision shall be metered by the lot owners.
4. The purchaser or owner of a lot or parcel understands and agrees that private road construction, maintenance, and snow removal shall be the obligation of the owner, his successors in interest, or homeowners' association, and that Blaine County is in no way obligated to accept, maintain or improve these roads until the roads are brought up to county standards, dedicated, and accepted by the county, and that each owner shall notify in writing any successor in interest of these facts.
5. This property includes and is adjacent to active agricultural uses. Residents and purchasers shall be aware that agricultural practices, livestock grazing and operations, occurring day and night, are allowed and may result in dust, odors, use and application of agricultural chemicals, spraying, ground preparation, harvesting, etc. In addition, the roads accessing this property are used by agricultural vehicles. Such practices and uses are normal functions on agricultural lands and are not considered nuisances.
6. Blaine County School District bus routes do not include Purple Sage Lane. School children may need transported to the nearest school bus stop on Friedman Lane.
7. Owner's shall comply with Health Department regulations including sewage disposal system setbacks from irrigation distribution systems.
8. Not more than fifty percent (50%) of the area in each parcel may be enclosed with fencing that exceeds the standards of the Idaho Fish and Game for the purpose of allowing movement of wildlife. The Fish and Game standards include a maximum top rail height shall be 42 inches and the minimum bottom rail height shall be 16 inches; post and pole design is recommended.
9. Individual lot owners are responsible for control of noxious weeds as per state regulations. Mowing and manual removal are recommended.
10. Each lot owner shall locate all structures except corrals & minor horse shelters within the designated building envelope.
11. Fences, utilities, and other improvements are currently located within the dedicated Friedman Lane Right-of-Way. As they are rebuilt or repaired or the county widens this road, these improvements shall be relocated on adjacent private property at that owner's expense. Existing Landscaping may continue to intrude up to five feet inside the western edge of the dedicated roadway.
12. A 10 foot public utility easement is reserved along the center of all interior and adjacent to all exterior lot lines.
13. The decreed water rights shall remain with the seven (7) lots contained herein in perpetuity and shall not be sold off the land. Specifically, the 2.32 cfs of groundwater (permit #37-7609) shall be prorated between Lots One through Six. Further, the 12.52 cfs of District 37 Big Wood River surface water (Permit #37-0114) shall be prorated between Lots One through Seven. For the respective State of Idaho Department of Water Resource permits, the subdivision Water Users Association shall deliver the following percentages of water to each of the lots:

	Groundwater (Permit #37-7609)	Surface water (Permit #37-0114)
Lot 1	14%	12.5%
Lot 2	14%	12.5%
Lot 3	14%	12.5%
Lot 4	30%	23%
Lot 5	14%	12.5%
Lot 6	14%	12.5%
Lot 7	N/A	12.5%
14. Wildlife damage to ornamental trees and shrubs may occur. The cost of resolving problems caused by wildlife damage to private property shall be the responsibility of the property owner(s). Action taken to alleviate wildlife damage and depredations shall be those prescribed or approved by Idaho Fish and Game Department. Idaho Fish and Game will provide consultation in a timely manner.
15. Hay or other livestock feed should be stored and fed so it is not available to big game. This will minimize the chances of attracting wildlife away from native winter range and reduce depredation potential.
16. Domestic pets should be kept indoors, in kennels, leashed or under control at all times. Dogs running at large dramatically increase the negative effects of housing development on neighboring livestock and wildlife, and domestic cats are proven to be very efficient predators on wild bird populations.
17. Homeowners along Friedman Lane should understand that unpaved county roads generate dust, have the lowest priority for snow plowing and may only get graded once a year.

Re: Change in Water Right Ownership: 37-114 C (Split into 37-114 C and **37-23256**), 37-7609 (Split into 37-7609 and **37-23257**),

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right.

If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

Please note, the water rights currently identify the firm Barker Rosholt & Simpson and Albert P Barker as the attorney. If this is no longer correct, the Department can remove and/or update the attorney on the water rights with your written authorization. Identifying an attorney on a water right is not required, but will ensure that they receive copies of any correspondence related to that water right.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Benny Walker
Senior Water Resource Agent

RE: Change in Water Right Ownership for Water Right No(s): 37-114C & 37-7609

Dear Water Right Holder(s):

The Idaho Department of Water Resources (Department) received a Notice of Change in Water Right Ownership (Notice) from you on October 9, 2020 for the above referenced water rights. The Notice was filed on your behalf by Pioneer Title Company of Blaine County. The Notice could not be processed because of water right number discrepancies listed in the Quitclaim Deed provided with the application. The Quitclaim Deed lists different water rights, 37-714C, 37-114B, and 37-114C, therefore it is unclear which water right(s) are proposed to change ownership. It should be noted that the amount of cfs proposed for the **Grantee's**, (2.035 cfs) of the water right 37-7609 will be rounded to, **2.03 cfs and the Grantor retains 0.29 cfs, for water right 37-7609**. You may want to adjust these amounts accordingly.

The Department will hold your Notice of Change in Water Right Ownership for 30 days from the date of this letter in order for you to send a corrected deed. If a corrected deed is not filed with the Department within the 30 days the Department will return the Notice of Change in Water Right Ownership and refund the fee of \$200.00, Receipt No. S038135.

If you have any questions, or if I can be of any further assistance, feel free to contact me at your convenience.

Sincerely,

Benny Walker
Water Resource Agent
