**RE: WATER RIGHT NO 85-4019; CORRECTING AN ERROR BETWEEN MUNICIPAL
AND TOTAL DIVERSION RATE**

Dear Mr. Frederick:

In reference to the above subject matter, the City of Lewiston City Council, at their regularly scheduled meeting on October 26, 2020, did hear this matter. The City of Lewiston acknowledges an error on Water Right 85-4019. The diversion rate for Municipal use should be 1.5cfs and match the overall diversion rate, which is also 1.5cfs. Please accept this letter as our approval to make corrections to the Municipal rate so that it reflects the same as the overall Diversion rate of 1.5cfs during the transfer process.

Sincerely,

Michael J. Collins
Mayor
City of Lewiston

ITEM HISTORY (PREVIOUS COUNCIL REVIEWS, ACTION RELATED TO THIS ITEM, OTHER PERTINENT HISTORY) City Council has not reviewed this item previously. Other actions related to this item: 1) City staff is currently working with the Idaho Department of Water Resources to consolidate the City's Water Rights, and 2) applying for diversion rights for Well #7, within the current and permitted water rights.			
ITEM COMMENTARY (BACKGROUND, DISCUSSION, KEY POINTS, RECOMMENDATIONS, ETC.) Please identify any or all impacts this proposed action would have on the City budget and/or personnel resources. In reviewing the City of Lewiston's application for Water Right Consolidation, the Idaho Department of Water Resources reviews all existing Water Right held by the City of Lewiston. In the departments review they noticed a discrepancy in Water Right No. 85-4019; wherein the report indicates a Municipal Rate of 2.3cfs and a Diversion Rate of 1.5cfs. a copy of the report is attached for your review. In reviewing the documents both rates appear; however, the Department of Water Resources uses the rate and date at which it was first pumped which corresponds to the Diversion Rate of 1.5cfs. This will NOT affect the City's water capacity.			
ACTION PROPOSED Recommend the City Council authorized the Mayor to sign the attached letter.
