WATER CONSERVATION TIPS

Kitchen And Laundry:

- ◆ Keep drinking water in the refrigerator instead of letting the faucet run until the water is cool.
- ◆ Wash fruits and vegetables in a basin. Use a vegetable brush.
- ◆ Do not use water to defrost foods, thaw in the refrigerator overnight.
- ◆ If washing dishes by hand, use a dishpan for rinsing dishes.
- ◆ Scrape, rather than rinse, dishes before loading into the dishwasher.
- ◆ Operate the dishwasher only when completely full.
- ◆ Add food wastes to your compost pile instead of using the garbage disposal.
- ◆ Use the appropriate water level or load size selection on the washing machine.

Bathroom:

- ◆ Never use your toilet as a wastebasket.
- ◆ Do not let water run while shaving or brushing teeth.
- ◆ Take short showers instead of tub baths. Turn off the water flow while soaping or shampooing.
- ◆ If you use the tub, fill the tub only half full.
- ◆ Never pour water down the drain when there may be another use for it -- such as watering plants or a garden.

Outside:

- ◆ Sweep driveways, sidewalks, and steps rather than hosing off.
- ◆ Wash the car with water from a bucket, or consider using a commercial carwash that recycles water.
- ◆ When using a hose, control the flow with an automatic shutoff nozzle.
- ◆ Avoid purchasing recreational toys that require a constant stream of water.
- ◆ If you have a swimming pool, consider a new water-saving pool filter.
- ◆ Lower pool water level to reduce amount of water splash out.
- ◆ Use a pool cover to reduce evaporation when pool is not in use.

Equipment:

- ◆ Repair all leaks. A leaky toilet can waste 200 gallons per day. To detect a leak in the toilet, add food coloring to the tank water. If colored water appears in the bowl, the toilet is leaking.
- ◆ Install ultra-low flow toilets, or place a plastic container filled with water or gravel in the tank of your conventional toilet. Be sure it does not interfere with operation of the toilet's flush mechanisms.
- ◆ Install low-flow aerators and showerheads.
- ◆ Consider purchasing a high efficiency washing machine that can save over 50% in water and energy use.

Partial Transfer Approval Notice

Dear Water Right Holder:

The Department of Water Resources has APPROVED IN PART the enclosed Transfer of Water Right(s). An additional, new well is authorized to be added to six (6) of the eight (8) water rights included in Transfer Application #84206. The diversion rate for Water Right 85-4019 for municipal was corrected per letter request by Mayor Michael Collins to reflect the diversion rate and overall diversion rate are equal to 1.5 cubic feet second. The request to add an additional point of diversion to Water Rights 85-4019 and 86-2032 is Denied. Denial was based on the determination that using the new well would result in a change in aquifer source for these two water rights. Please thoroughly review the water right elements, conditions of approval, and remarks listed on the approval document.

The approval of Transfer of Water Right Application #84206 is issued as a PRELIMINARY ORDER by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.
