RE: Application for Permit- Incomplete - Returned

Dear Applicant,

This office received your application corrections, however, the application is still not considered complete for the Idaho Department of Water Resources (IDWR) until the following items are addressed. These amendments to your application will ensure that IDWR correctly processes your application with the uses and amounts of water that you intend.

Section 5. Types of use need to be clearly listed. You indicated in the description of use in section 8, that you intend to use the well for both domestic and stock water uses.

IDWR's standard rate for 26 to 50 head of beef/range cattle is 0.02 cfs for stock water use. The standard period of use for stock water is from January 1st to December 31st. It is not necessary to specify a 6 month period of use.

IDWR's standard rate for a single household is 0.04 cfs for domestic use. The standard period of use for domestic purposes is from January 1st to December 31st.

You may apply for more than one use on the application, section 5 indicates your intent is for stockwater, however section 8d indicates that you may want to include domestic use. Please fill in the amount for each water use you intend to appropriate and list in separate rows. For example:

Amount 0.02 for Stock water purposes from Jan 1 to Dec 31
(cfs or acre-feet per year)

Amount 0.04 for Domestic purposes from Jan 1 to Dec 31
(cfs or acre-feet per year)

Section 6. Please fill in the total quantity of water that you intend to use. This is calculated by adding together all the amounts in Section 5. Use 0.02 if only applying for stockwater.

Total quantity to be appropriated is (a) 0.06 cubic feet per second (cfs)

Section 9. Place of Use. According to the provided map, the proposed POU is in the NW of SE tract. The 40 acre tracts that were checked on the application were NWNW and SENW of Section 5, Township 5N, Range 2W. According to your map it appears that you intend to use the water in the NWSE 40 acre tract. For example: *BLACK SAGE - STOCK TROUGH*

BLACK SPOT - STOCK TROUGH
METAL ROOF - HOUSE TO NORTH

[illegible]

The original incomplete application is enclosed. Please make the necessary amendments to the original forms. Changes to your application should be made by crossing out the old values, writing in the new values, and adding the date and your initials next to the changes. Please make the necessary amendments to the original forms and re-submit within the next **thirty (30) days**. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date.

Please let me know if you have any questions regarding the content of this letter. I can be reached by phone at 208-334-2190 or by email at allen.bradbury@idwr.idaho.gov. IDWR forms and other information can be found at www.idwr.idaho.gov.

This application proposes the diversion and use of water from a tributary of the Salmon Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because the diversion rate and acres will be applied to the subordination amounts specified in the decree for the Wild & Scenic River listed above.

RE: Application for Permit- Incomplete - Returned

Dear Applicant,

This office received your application corrections, however, the application is still not considered complete for the Idaho Department of Water Resources (IDWR) until the following items are addressed. These amendments to your application will ensure that IDWR correctly processes your application with the uses and amounts of water that you intend.

Section 5. Types of use need to be clearly listed. You indicated in the description of use in section 8, that you intend to use the well for both domestic and stock water uses.

IDWR's standard rate for 26 to 50 head of beef/range cattle is 0.02 cfs for stock water use. The standard period of use for stock water is from January 1st to December 31st. It is not necessary to specify a 6 month period of use.

IDWR's standard rate for a single household is 0.04 cfs for domestic use. The standard period of use for domestic purposes is from January 1st to December 31st.

You may apply for more than one use on the application, section 5 indicates your intent is for stockwater, however section 8d indicates that you may want to include a domestic use. Please fill in the amount for each water use you intend to appropriate and list in separate rows. For example:

Amount 0.02 for Stock water purposes from Jan 1 to Dec 31
(cfs or acre-feet per year)

Amount 0.04 for Domestic purposes from Jan 1 to Dec 31
(cfs or acre-feet per year)

Section 6. Please fill in the total quantity of water that you intend to use. This is calculated by adding together all the amounts in Section 5. Use 0.02 if only applying for stockwater.

Total quantity to be appropriated is (a) 0.06 cubic feet per second (cfs)

Section 9. Place of Use. According to the provided map, the proposed POU is in the NW of SE tract. The 40 acre tracts that were checked on the application were NWNW and SENW of Section 5, Township 5N, Range 2W. According to your map it appears that you intend to use the water in the NWSE 40 acre tract. For example:

[illegible]

The original incomplete application is enclosed. Please make the necessary amendments to the original forms. Changes to your application should be made by crossing out the old values, writing in the new values, and adding the date and your initials next to the changes. Please make the necessary amendments to the original forms and re-submit within the next **thirty (30) days**. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date.

Please let me know if you have any questions regarding the content of this letter. I can be reached by phone at 208-334-2190 or by email at allen.bradbury@idwr.idaho.gov. IDWR forms and other information can be found at www.idwr.idaho.gov.

Sincerely,

RE: Application for Permit- Incomplete - Returned

Dear Applicant,

This office received your application on October 15, 2020. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

Section 4. Location of Point(s) of Diversion. Please provide complete location information. The $\frac{1}{4}$ $\frac{1}{4}$ description of your point of diversion (POD) was not provided. According to your map, the proposed POD appears to be in the NESW $\frac{1}{4}$ $\frac{1}{4}$. Please provide the correct legal location for the 40 acre tract in the POD table. For example:

TWP	RGE	SEC	$\frac{1}{4}$ (10 ac)	$\frac{1}{4}$ (40 ac)	$\frac{1}{4}$ (160 ac)
15N	02W	5		NE	SW

Section 5. Type of Use was not provided correctly. You indicated in the description of use, section 8, that you intend to draw both domestic and stock water from the well. The current definition of single household domestic water use is provided by section 42-230(d), Idaho Code, which states:

"Domestic purposes" is water for household use or livestock and water used for all other purposes including irrigation of up to one half ($\frac{1}{2}$) acre of land in connection with said household where total use is not in excess of thirteen thousand (13,000) gallons per day. For the purposes of the exception in section 42-227, Idaho Code, "domestic purposes" shall not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments.

Please fill in the amount for each water use you intend to appropriate and list separately unless domestic use is sufficient. For example:

Amount 0.04 for Domestic purposes from 1/1 to 12/31
(cfs or acre-feet per year)

Section 6. Please fill in the total quantity of water to be appropriated.

Section 8e. Please describe wildlife use mentioned in section 5.

Section 9. Place of Use. Please provide complete township and range information. The quarter-quarter description of your place of use (POU) was not provided. According to the provided map, the proposed POU appears to be in the NESW and/or NWSE. You must indicate the location of each proposed use listed in Section 5 using the appropriate symbol for each use in the POU table. For example:

			SW			
TWP	RGE	SEC	NE	NW	SW	SE
15N	02W	5	D			
		5	S			

Section 12. The comment section is incomplete. See the attached instruction document for guidance.

Section 14 of the application requires a map that clearly identifies the proposed point of diversion and place of use. Please use the included map to show where the well will be drilled (POD) and also draw an outline around the 40-acre tracts where the water will be put to beneficial use.

The Fee was not provided correctly. This application requires a processing fee. The processing fee is based on the total quantity to be appropriated (section 6). See the enclosed fee schedule and submit a check in the appropriate amount.

The original incomplete application is enclosed. Please make the necessary amendments to the original forms. Changes to your application should be made by crossing out the old values, writing in the new values, and adding the date and your initials next to the changes. Please make the necessary amendments to the original forms and re-submit within the next **thirty (30) days**. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date.

You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information.

Sincerely,
