Greg-

In discussing the East Valley Cattle, LLC stockwater/commercial POD/POU transfer with Corey, he wants to retain the 10 acre (QQQ) description on the PODs that are dual use (both stockwater/commercial and irrigation) to reduce the chance for errors if EVC needs to drill an irrigation replacement well. The PODs on the EVC irrigation rights are described down to the 10 acre tract. If staff were to check on the stock/commercial side of the POD, it would show that a replacement well could be drilled in the same 40 acre tract, but the irrigation side would only allow the drilling of a replacement within the 10 acre tract. I believe that would affect 6 PODs, in the SESE and SESW of Section 26; the NENE of Section 34; and the SENW, SENE, and SESE of Section 35.

TRANSFER SYNOPSIS

Date: December 14, 2020
To: East Valley Cattle, LLC Transfer #84566 file
From: Jim Bitzenburg
Re: Summary of transfer

Application for transfer proposes to modify the place of use (POU) and change/add points of diversion (POD) for twenty stockwater/commercial ground water rights, with a combined flow rate of 4.61 cfs, appurtenant to a CAFO located approximately 7.5 to 8.7 miles north and 4.8 to 5.9 miles east of Malta. The transfer will add, as authorized PODs, two existing wells, one located approximately 8.4 miles north and 4.8 miles east of Malta and the other located approximately 8.6 miles north and 5.7 miles east of Malta, while correcting the legal description of a third POD. The transfer also proposes to add two contiguous quarter-quarters to the POU.

The CAFO facility is located within the Raft River Critical Ground Water Area and the transfer proposes adding PODs so the transfer will be advertised. Since the facility is within Water District 143, comments will be solicited from the WD-143 Watermaster.

The stockwater/commercial rights at the CAFO are:

43-13449	0.69 cfs	93.9 AF	43-13451	0.64 cfs	75.9 AF
43-13453	0.48 cfs	136.7 AF	43-13455	0.19 cfs	49.8 AF

43-13511	0.11 cfs	77.2 AF	43-13763	1.75 cfs	637.2 AF

The combined limits for the dairy rights are: a diversion rate of 4.61 cfs and a volume of 1782.8 AF.

Re: Well Construction fee

Dear Sirs:

The Department is in the process of reviewing transfer application 84566 for a group of twenty stockwater/commercial ground water rights in the Raft River Valley. This water right transfer proposes changing and adding points of diversion and specifically proposes adding a point of diversion in the SESE of Section 26, Township 11 South, Range 27 East in Cassia County. The proposed point of diversion is a domestic well that was drilled in April of 2020 under permit 892609. Specified in section 42-235, Idaho Code, if the well is to be used for other than domestic or monitoring purposes, the charge for the permit shall be two hundred dollars (\$200). The requirement is further explained in the well construction rules:

IDAPA 37.03.09 - Rule 45.05.b. The difference between the drilling permit fee required by Section 42-235 Idaho Code as applicable, must be paid when an existing well constructed on or after July 1, 1987, for which the lower drilling permit fee was paid, is authorized by the Director for a use which would require the larger drilling permit fee.

Because the well was originally permitted only as a domestic well, the drilling permit fee was \$75.00. The transfer increases the use of the well to stockwater and commercial, which would increase the permit fee to \$200.00. At this time the Department requests that the difference (\$125.00) be paid to appropriately match the use.

If you have any questions, please call me at 208-293-9909.

FEE MEMORANDUM

Date: December 11, 2020
To: East Valley Cattle, LLC Transfer #84566 File
From: Jim Bitzenburg
Re: Receipting/disposition of fees paid

This transfer was filed on December 10, 2020 and adds two points of diversion (POD) to twenty stockwater/commercial rights at a CAFO near Malta. Because the entire combined flow rate of the rights could be diverted from either of the two additional PODs, it is appropriate to base the fee on the combined flow rate of 4.61 cfs, which equates to a fee of \$820.00 from the transfer fee schedule. This fee was paid at the time of filing by Brockway Engineering, PLLC with check #16165, IDWR receipt #S038286.
