NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. 11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

13 **Narrative:** The Department received this application on 12/8/2020. The application was signed by Richard Lewis, general partner of Myron Lewis Farms. He wishes to place 36 acres of this right in the Bank. This right was decreed in 2008. These acres have been in the Bank since 2016. From 2013-2015, the end gun corners were in the AWEP program through the Board. This contract is for the purpose of conserving surface and ground water & improving quality. The agreement was for the conversion of irrigated land to dry land farming by either removing the end gun or conversion to dry land of acreage not covered by an end gun. The contract was in the name of Raybould Brothers Farm, LLC, who rented the land from Myron Lewis Farms. Prior to being enrolled in this program, the corners were irrigated. There are no overlapping rights. This right is currently within WD 100.
