4. medl 10/16/2007 license review

While reviewing this file for licensing, I found the following worth noting:

This permit has changed ownership twice since the application was submitted. I had difficulty interpreting the intension of the most recent assignment and was assisted by Shelley Keen.

Neither the POD nor the POU shapes had been created prior to my review. I created them based on the field exam notes and map and Boundary County tax information.

Both the application and the field exam place the POD straddling the QQ line. That gave the appearance that there are two point of diversion, when only one exists. I chose to place the POD inside the property boundary for the permit holder, in the SW1/4NE1/4. I deleted the second POD location from the data entry for this water right.

The permit and field exam also evenly distribute the irrigation use. I chose to distribute most of it over property owned by the permit holder.
